

2019 SACQSP INTERNATIONAL RESEARCH CONFERENCE

PROFESSIONAL ACCOUNTABILITY... IN AN INDUSTRY IN TURMOIL

16 – 17 SEPTEMBER 2019 | GALLAGHER CONVENTION CENTRE | JOHANNESBURG | SOUTH AFRICA

Organised for THE SOUTH AFRICAN COUNCIL FOR THE QUANTITY SURVEYING PROFESSION
in conjunction with WITS UNIVERSITY

The 11th Annual SACQSP Research Conference provides an internationally endorsed forum for academics, postgraduate researchers and practitioners to address and debate the key challenges affecting not only the Quantity Surveying Profession, but all built environment professions. The SA Council for the QS profession (SACQSP) has long understood the importance of research for the growth and sustainability of the profession. This Council has, and will continue to provide a platform for debate and the sharing of knowledge by quantity surveyors, other built environment professionals and academics in the form of an annual research conference. Wits University has been selected to be the event and content organisers of the 2019 conference.

300 delegates are expected to register for the conference which will include academics, post-graduate researchers and practitioners involved in the built environment.

THE THEME FOR THE 2019 CONFERENCE

The familiar behemoths that have defined the industry for some time have succumbed to the current strained spending from the government. The depressed economy is adding more pressure on the industry that was still recovering from a tarnished image in recent years. The moral deficit that is perceived to be bedevilling many sectors in our economy and in other jurisdictions yonder, calls for innovative ways of self-redemption.
