## GALLAGHER CONVENTION CENTRE | HALFWAY HOUSE | MIDRAND

The Annual SACQSP Research Conference provides an internationally endorsed forum for academics, postgraduate researchers and practitioners to address and debate the key challenges affecting not only the Quantity Surveying Profession, but all built environment professions. This year's theme is "Professional Accountability in an Industry in Turmoil" and Wits University has been selected to be the event and content organisers.

### THEME EXPLANATION

The familiar behemoths that have defined the industry for some time have succumbed to the current strained spending from the government. The depressed economy is adding more pressure on the industry that was still recovering from a tarnished image in recent years. The moral deficit that is perceived to be bedeviling many sectors in our economy and in other jurisdictions yonder, calls for innovative ways of self-redemption.
