

NKANDLA (Nkandla cost taxpayers R206m)

● I like the fact that awareness has been created around this issue, but where do we as a country go from here? Are going to make Zuma pay us back? The government needs to compensate taxpayers for the misuse of funds. # Xiluva, 15.

● Let's see what he (Zuma) should do in his second term and let's forget about the past.

● Jacob Zuma must stop playing with money because unemployment rate is high. Lead by example. Billy Peele.

● How can you trust anything the government tells you when our own president lies? Patrick Shields.

● We all know what the people of SA need; it's basically everything. There is nothing that can explain why one man (the President) deserves this opulence over the hardworking Tax Payers of this Country who are out there trying to make ends meet. Shame on the ANC; they deserted decency for greed!
