

Premier gifts homes

NORTH West Premier Supra Mahumapelo handed over houses in Taung yesterday, ahead of his State of the Province Address.

He handed over five houses to families whose houses were demolished last year, to make way for the construction of a two-way bridge at Kolong village in Taung.

The construction of the houses was completed in December, with one of the affected families having officially occupied the house in October last year.

The houses were built by the provincial Department of Public Works and Roads. The five houses have already been electrified and have access to clean water. – ANA
