

Ward 103 councillor, Vincent Earp stands by a recent burst pipe spot in Sandown Ext 24.

# Water main to be upgraded

Johannesburg Water will be replacing an asbestos-cement water main in Sandown Ext 24.

This is aimed at reducing water losses and increasing the overall efficiency of the system in the area. This pipe replacement programme will be one of the projects that will be used as part of the Vuk'uphile Learnership Programme. This is a sub-programme of the Expanded

Public Works Programme, which is an emerging contractor development programme that focuses on labour-intensive construction methods.

Residents are invited to attend a public meeting on the project and have an opportunity to ask questions.

The meeting will be held on 11 April at 6pm at the Sandown Training boardroom at the Region

E head office at 137 Daisy Street.

The following streets will be affected while the project is being implemented:

Adrienne Street, Aston Street, Tamar and North streets, North Road, Gerhard and David streets, Adolph and David streets, Rivonia Road and Marion Street, and East and West lanes.

Details: Region E customer service centre 011 582 1400.
