

HARBOUR UPKEEP

PUBLIC Works Minister Thulas Nxesi and stakeholders planned a visit to Gordon's Bay harbour in Cape Town to evaluate its dredging and refurbishment and to signify the department's commitment to ensuring South Africa's harbours are transformed, retain their pristine condition and provide an economic stimulus for local communities. The dredging and renovation programme has yielded socio-economic results by way of job creation, harbour development to underpin economic growth, in line with Operation Phakisa (the oceans' economy) and poverty alleviation. | **HENK KRUGER**/African News Agency (ANA)
