

PUBLIC WORKS WARNS INTERNS AGAINST SCAM

THE Department of Public Works is warning job-seekers not to fall for a scam which purports to offer an internship with the department in 2019.

“The advert might look legitimate but it is not ... the platform that is used and the contents of the advert are all wrong,” the department said in a statement.

“They are misleading and enticing unsuspecting prospective applicants.”

The department added that its adverts and those of the government in general, are only advertised through the Department of Public Service and Administration (DPSA) website, under vacancies, or through the jobs’ sections in newspapers.

If you are concerned about the authenticity of any adverts contact Muriel Magane at 012 406 1552.
