

Seroka takes on new role

By PHUTI RALETJENA

THE infrastructure backlogs in the province's government departments may soon be resolved.

This follows the appointment of Dikgole Seroka as the new head of the Limpopo Department of Public Works and Infrastructure.

The department went for more than 15 months without a leader following the resignation of Obakeng Mongale in December 2017.

Premier Stan Mathabatha said Seroka's appointment will help fast track service delivery.

"Seroka's appointment comes at a time when the department is on a key mission to improve its audit opinion and generally to improve its image," he said.

Before his appointment, he was the director responsible for mu-

nicipal infrastructure in the Department of Co-operative Government and Traditional Affairs.

Mathabatha said Seroka came with a wealth of knowledge, having worked for various government departments around the country.

Public Works MEC Nandi Ndalane wished him the best.

"Heading this department is a huge task which I have no doubt you will deliver.

"Your experience in the public service and the private sector will come in handy as we aim to improve the audit opinion of the department.

"We also want to improve the image of the department and, importantly, to deliver to the people of Limpopo."
