

Public Works MEC Nandi Ndalane, assists workers in fixing a pothole.

MEC launches project to fix potholes

Ridovhona Mbulaheni

THE MEC for Public Works and Roads and Infrastructure, Nandi Ndalane, and Mogalakwena Mayor, Andrina Matsemela last week launched the Pothole Patching Project on the 38km stretch of road from Mosesetjane to Bakenberg.

Matsemela said they were engaging with the MEC on other roads that needed to be prioritised.

“This road services over 30 villages and is a key route for our communities to access George Masebe Hospital and clinics,” said Matsemela.

The MEC said that the objective of this project is to have potholes across the provincial road network fixed as a matter of urgency.

She encouraged road users to report potholes to local, district municipalities or directly to their offices.
