Mayor calls for more active citizenry in service delivery affairs

In the month of October, the leadership of Umdoni Municipality through the Office of the Speaker will be visiting various clusters of this locality for the annual Mayoral Izimbizo to comprehensively engage with communities and identify service delivery requirements in preparation for the drafting of the new budget for the 2020/2021 financial year.

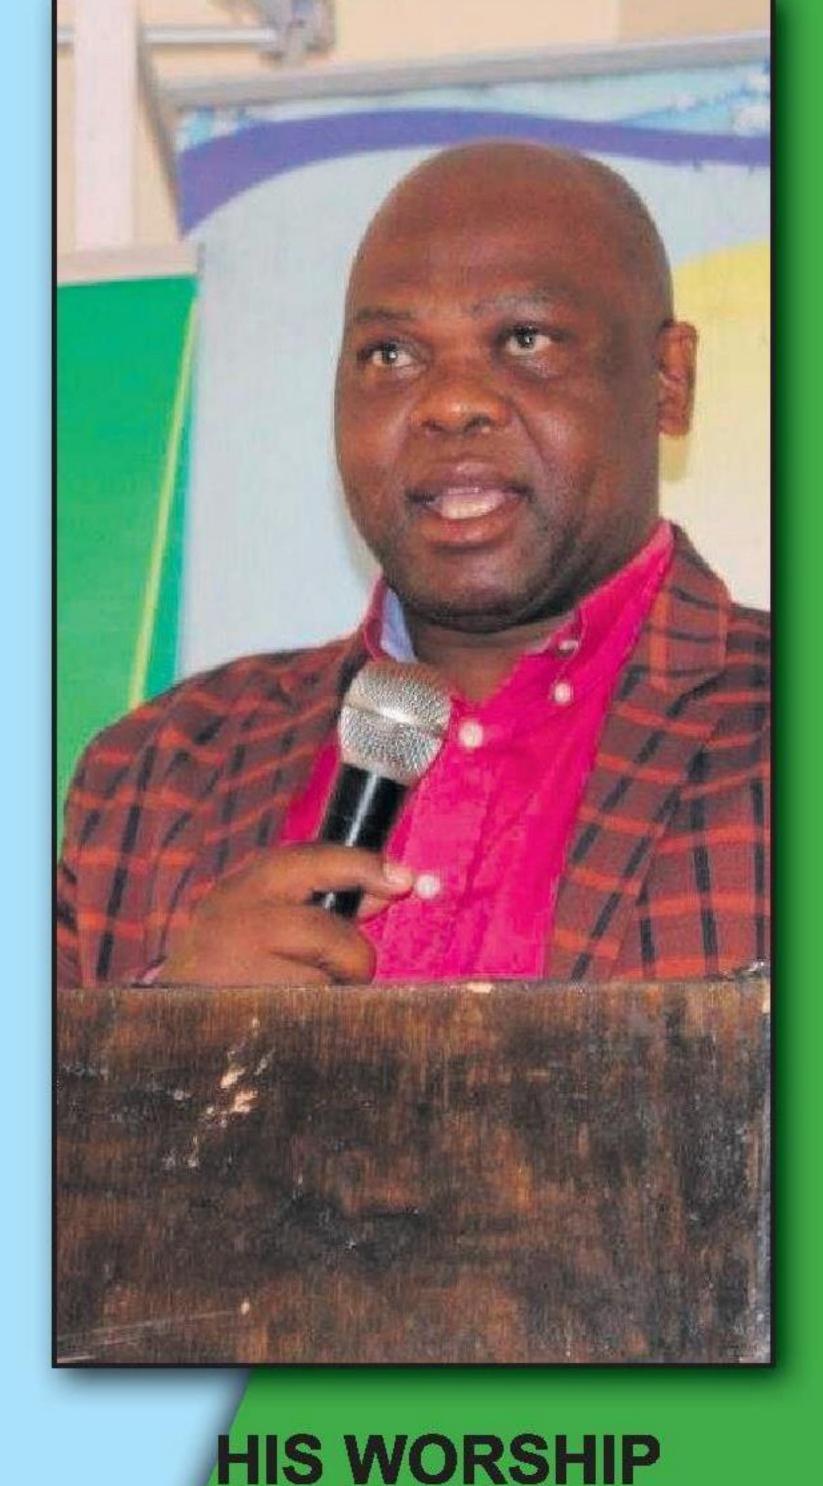

This platform is also utilized as a laboratory to gage the municipality's performance on the provision of services whilst also giving feedback on the status quo of all key service delivery issues and capital projects that the municipality and community had agreed upon during the compilation of the IDP/Budget for 2019/20 financial year.

This annual process is in adherence to the Local Government Systems Act no 32 of 2000 which gives facebook page "Umdoni Municipality News" for a directive to municipalities to encourage and create confirmed dates on when the Mayoral Imbizo will be conditions for communities to participate in the

affairs of the municipality. We strongly encourgage the Umdoni community to utilize this platform for maximum benefit by ensuring their full participation and share in the developmental agenda of the municipality.

This public consultative process is aimed at improving community involvement in decisionmaking processes of the municipality which ensures that the communities' needs are directly responded to thus improving our level of service delivery. As a caring government, we are determined in fulfilling the resolve of improving service delivery and ensuring a better life for all communities of Umdoni.

Members of the community are urged to check their local newspapers and the Municipality's in your area.

THE MAYOR: CLLR TW DUBE

"Working together in contributing to job creation, economic viability through sustained Local economic development to ensure the wellbeing of our community in eco-friendly environment."
