

MEC visits district municipality

Stellalander-Vryburg - “We value your contribution in this department.”

That is according to MEC for Public Works and Roads, Gaoage Molapisi during his engagement with departmental employees at Dr Ruth Segomotsi Mompati.

This was his second engagement following the one with staff of the Dr Kenneth Kaunda District municipality.

Molapisi has deemed it necessary to embark on these engagements to hear the concerns and understand the department on the ground. He also reminded them about the pillars of government and plans of the department in relation to these pillars. “You are given a voice to offer ideas and express views that are taken into account when decisions are made,” said Molapisi.

Plans to visit the remaining districts are underway.
