suckers. This shows that the vision of this country will be accomplished with the present government,” said Gumede.

Delivering her speech during the handover MEC Ms Peggy Nkonyeni stated that Operation Khawuleza is the Provincial Government's quick response to maintaining roads, fixing and maintaining infrastructure and many other service delivery issues.

“The current government is here to change lives in many aspects to those who were neglected by the apartheid regime. This government led by President Cyril Ramaphosa will

introduce a District Development Model that seeks to improve service delivery. The model will seek to rectify the imbalance caused by the previous regime government from local to district level. All the plant that is handed over here in iLembe will be monitored in order to make sure it serves what its made for. We request councillors to improve communities using these machines,” said MEC Nkonyeni.

“Dependency syndrome is killing our communities. People must form co-operatives and start projects, government will intervene when there is something,” added Nkonyeni
