

MEC declares war on potholes

By **DESMOND BOSHEGO**

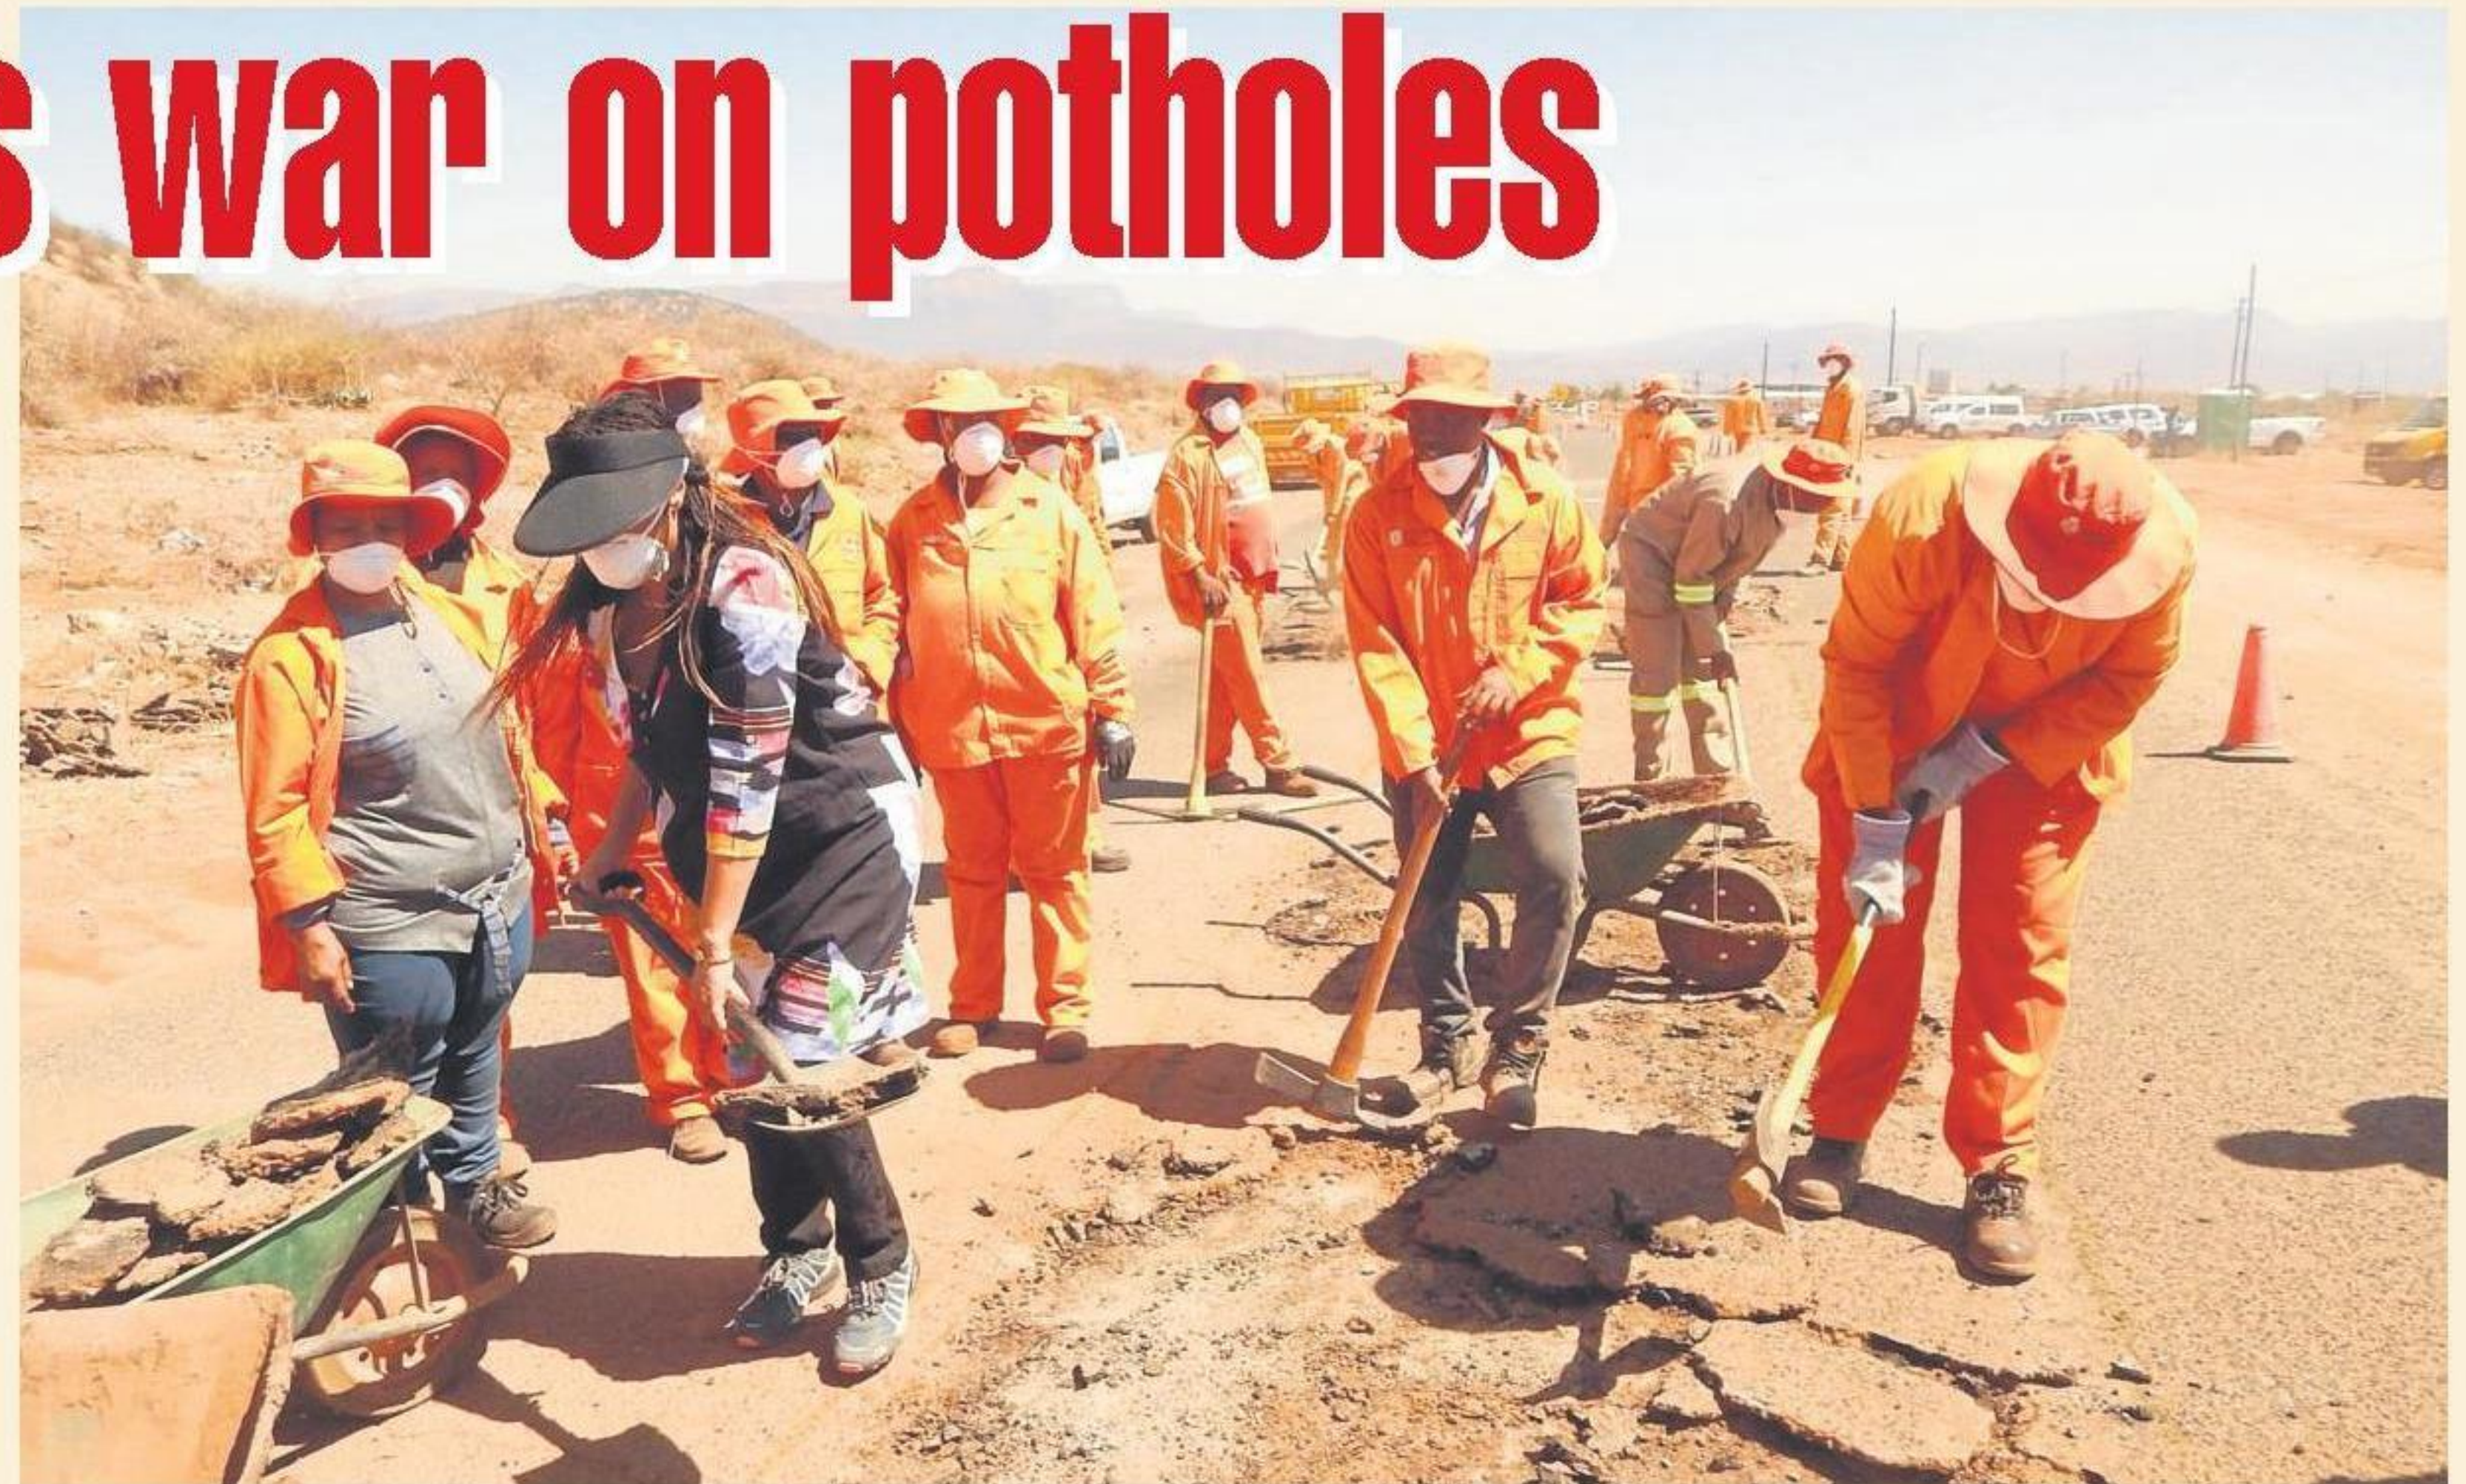

ACCIDENTS caused by potholes are becoming a nightmare for road users in Limpopo.

With the aim of addressing the problem, Public Works Roads and Infrastructure MEC Monicca Mochadi on Tuesday launched Operation Thiba Potholes at the D2537 route in Burgersfort.

The operation will see the MEC conducting oversight visits to road infrastructure project under construction across the province.

Mochadi said embarking on this exercise ensured that what her department pronounced during the 2019/2020 budget vote happened on the ground.

“This is also in preparation for the festive season which requires our roads to be completed, be of

quality and in good condition,” said Mochadi.

She said she believed the roads would help ease traffic flow and prevent unnecessary loss of lives

due to crashes.

The MEC said her department has declared war against potholes, which cost people their precious lives.
