

## Public Works to release 100 land parcels

THE PUBLIC Works and Infrastructure Department is in the process of releasing 100 parcels of land for restitution.

This was announced by Public Works Minister Patricia De Lille yesterday at an event to mark the official opening of a shopping mall belonging to a family who claimed

back their land in Constantia.

“As an activist who fought against apartheid, it is my great honour to serve our country and to be part of the process,” De Lille said.

The Hadjie Solomon family won a 15-year land battle. They are the force behind the mall.
