Progress on Lenyenyne main street.

Lenyenyne's main street gets a facelift

Tintswalo Shipalana

The Greater Tzaneen Municipality is nearly finished with the rehabilitation of the main street in Lenyenyne.

The street was inundated with potholes and has now acquired base correction, patchwork, and a 25mm asphalt overlay.

Cleaning of drainage structures and the replacement of damaged road signs and road

markings were also undertaken.

The project is 95% complete.

A total budget of R3,2m was utilised for the project and Makasana Construction was the project contractor.

The project has employed 15 locals, one community liaison officer, one safety health and environment representative, one safety officer, and 12 expanded public works programme workers.
