Limpopo MEC for Transport and Community Safety and Members of Limpopo Legislature Portfolio Committee of Transport and Safety visits Lephalale

LEPHALALE

Limpopo MEC for Transport and Community Safety, Florence Radzilani and Lephalale Local Municipality Mayor, Aron Mokgetle, on Wednesday 19th July 2023, joined members of the Portfolio Committee that oversees her Department, on an oversight visit to the Lephalale Local Municipality. The Limpopo

Legislature Portfolio Committee on Transport and Community Safety, is in the Lephalale Municipality, within the Waterberg District, on an oversight expedition to check facilities at the Groblersbridge Border Gate and Weighbirdge, Stockport Border Gate, and SAPS Outlets in the area. The Mayor appreciated the work of

the Portfolio Committee of 'ensuring that services are rendered to the communities'. He further said that the fact that members of the committee and the MEC are visiting Lephalale means that the challenges experienced by communities of Lephalale will be addressed. Some of the challenges that were identified

at the Globberbridge is that the broader post is situated in flood line and during rainy season the place gets flooded. Officials from the National Department of Public Works and Infrastructure gave a detailed presentation on what the Department is currently doing to deal with the challenges experienced at the boarder.
