Social Compact Imbizo held to address service delivery issues

Photos: DESTEA

The community members from the Letsemeng Local Municipality recently gathered at Diamante High School in Koffiefontein for the Social Compact Imbizo. The Xhariep District Social Compact imbizo led by Treasury MEC Gadija Brown and Public Works & Infrastructure MEC Dibolelo Mance allowed the residents to interact with the government and address various

issues related to the delivery of services in their area. One of the residents Christebelle Klaasen who is employed as an EDC educator in Opperman said she wants the government to uplift the community and work with them to develop their areas to give the youth hope. She wants all the people attending to take messages back to their communities and implement some

outcomes out of this gathering. Meanwhile, the Free State Department of Human Settlements confirmed that during the Social Compact Imbizo, about 150 title deeds were handed over to their rightful owners. The department said about seven of them were symbolically given to the recipients by the Premier of the Free State, Mxolisi Dukwana.
