Construction mafia known to police

The security cluster cannot deal with the construction mafia because they were created by the ANC. The mafia are known to the police, however, they cannot be arrested because there are allegations that politicians and the police are involved.

If these hooligans were ordinary citizens, they would have been arrested long time ago. Fikile Mbalula would have made lots of noise and demanded they be arrested.

In my opinion, RDPs were supposed to be built by the department of public works. This would have created jobs for many poor black people throughout the country, but the ANC government decided to empower a few connected individuals by dishing out tenders.

I am also of the view that the government should only issue tenders for the supply of building materials

(bricks, lintels, cement, door frames, window frames, paints, building sand, roofing materials and other accessories) when RDPs are built.

If this was done, it would guarantee that houses could be completed on time. However, our government is obsessed with enriching a few individuals connected to the ANC by issuing tenders to build low-cost houses. The government is having a taste of its own medicine because it allowed lawlessness to please saboteurs.

There is no doubt that the ANC's radical economic transformation (RET) hyenas and vultures are behind the construction mafia. If the government does not put its foot down, mafias will destabilise the economy of the country further and it will appease the RET hyenas and vultures.

Lyborn Rikhotso, Giyani
