DA calls for urgent clean-up campaign in Moqhaka

by Chris Dalton - DA Councillor Moqhaka Municipality.

The Democratic Alliance (DA) in Moqhaka will write to municipal manager Simon Mqwathi to launch a one-month clean-up campaign using approximately 1,200 underutilised EPWP workers. Refuse collection has suffered due to a shortage of trucks and lack of commitment from officials, with no consequence management, leading to increased dumping sites.

Law enforcement has failed, demoralising residents and prompting protests. The DA condemns violent actions, emphasising that accountability and proper service delivery are essential. Under the underperforming ANC leadership, neglect has worsened the waste problem, and the DA will act to restore order and pride in the towns.
