## Employee Health Assessment Day

The Free State Department of Public Works's Employee Health and Wellness Directorate hosted a Health Assessment Day for their employees on 9 May in Bloemfontein, at the Sesotho and Afrikaans Literature Museum known as NALN and Dingolweng.

The Department partnered with health professionals to provide services to employees such as dentistry, optometry, audiology, podia-

try (Doctor specializing in feet), a Dietician and Physiotherapy among other.

A specialised Women's Wellness Clinic was also available to address women related issues and provide support.

Through the health assessments, the department said it invests in the well-being of employees with the aim to boost job satisfaction, reduce absenteeism, and ultimately deliver exceptional services.
