

E Cape donates farms
EASTERN CAPE'S public works plans to donate 12 farms to the Enoch Mgijima municipality. The department said the donation aims to address landlessness, speed up township establishment and enable residents living on the farms to obtain secure tenure and access to municipal services. "This undertaking is informed by the fact that these farms have informal townships which are not contributing to the mandate of the department," said spokesperson Vuyani Nkasiyi. — Daily Dispatch
