PREAMBLE

The Department of Public works (DPW) has for decades operated a roster system for the appointment of consultants in terms of its delegated authority from the State Tender Board. An investigation in 1994 showed that this system had not resulted in a fair and equitable distribution of DPW's work to private sector consultants.

As part of the transformation and procurement reform policy adopted by DPW, it was decided to initiate a system that would rectify this imbalance and distribute work to consultants more fairly and, also, to target historically disadvantaged firms and individuals in order to develop their experience, capacity and numbers.

DPW invited the Alliance of Development Professionals (ADP) and South African Black Technical and Allied Careers Organisation (SABTACO) to participate in a process which led to the implementation, in 1996, of a dual roster system - the existing roster and the newly introduced Pilot Roster - on a temporary basis.

ADP and SABTACO participated with DPW in the development of the system and in auditing the evaluation of firms which applied for inclusion on the Pilot Roster. The intention was that the Pilot Roster would operate for 18 months from the date of its introduction, after which a permanent system would be introduced. The development of the new roster would draw on the experience gained from the operation of the Pilot Roster.

In June 1997, DPW commissioned a Steering Committee comprising representatives from DPW, ADP and SABTACO, to draw up a policy for the establishment of a permanent Consultants Roster. The new consultants roster became operational on 15 October 1999.

It is intended that the DPW will, at intervals of approximately one year and in conjunction with relevant professional bodies such as ADP and SABTACO assess the operation of the Roster in order to determine whether it is achieving its objectives in a satisfactory manner. If, at any stage, it transpires that the Roster is not functioning satisfactorily, consideration will be given to modifying the system to remedy the shortcomings.

The Roster as set out in this document is consistent with other policies and practices of the Department and embraces the proposals set out in the Green Paper on Public Sector Procurement Reform in South Africa pertaining to professional services, including the duration of an Affirmative Procurement Policy. It furthermore reflects the changes that resulted from the first annual review.

Computer software to operate the Roster satisfactorily has been developed to implement the Roster and is available for use by organs of state.

2.3 TYPES OF ASSIGNMENTS

There will be three types of assignments with fees for an assignment not exceeding R2 m, these being as follows :-

- 2.3.1 **Routine Assignments** are assignments where the tasks are of a straightforward nature involving, in the main, standard technologies in terms of which inputs are relatively well known and outputs can be readily defined.
- 2.3.2 **Specialist Assignments** are assignments in which the bulk of the service involves technically complex work which calls for considerable innovation, creativity, expertise and/or skills. Such assignments may be characterised by ill-defined inputs and outputs.
- 2.3.3 **Complex Assignments** are assignments other than Routine, or Specialist, assignments and may include policy development, restructuring, strategic planning and research and development.

3. PURPOSES OF THE ROSTER

The purposes of the Roster are to :

- enable the DPW to make appointments efficiently, in terms of power delegated to it by the State Tender Board, for professional services for projects on which the estimated fees for an assignment do not exceed R2 m.
- ensure that the work is carried out in a professional, competent and cost effective manner.
- permit assignments to be allocated in a fair, equitable and transparent manner.
- promote access to assignments by small, and micro enterprises.
- provide accelerated work opportunities for Firms which enjoy Preferred Firm status in support of a Preferential Procurement Policy.
- foster and promote constructive relationships between established Firms and APSP Firms in order to build capacity and experience in the latter.

4. PRINCIPLES OF ASSIGNMENT FROM ROSTER

4.1 ROSTER DATA

The Roster will be a single list of Firms and Offices covering the disciplines associated with Construction Works and will contain, *inter alia*, the following data in respect of the Head Office and each Branch Office of every Firm :-

- 4.1.1 The number of Registered Principals employed at the Office.
- 4.1.2 The disciplines and sub-disciplines in which the Office is competent.

4.1.3 The geographical location of the Office.

4.1.4 The preferred status of the firm.

4.2 PREFERENTIAL TREATMENT OF PREFERRED FIRMS

4.2.1 Firms which qualify for Preferred Firm status will be given accelerated access to work opportunities by DPW and will rotate faster on the Roster than Firms which do not enjoy such status.

4.2.2 An APSP will be permitted to nominate not more than two localities in addition to its registered locality, at which it may wish to open up an office to enable it to work in Structured Joint Ventures with Firms in that locality.

4.2.3 The DPW may require non-APSP Firms to enter into Structured Joint Ventures with APSP Firms in order to develop skills, competency, expertise and capacity in the latter.

4.3 DEALING WITH DIFFERENT TYPES OF ASSIGNMENT

The different types of assignment (see 2.3) will be dealt with as follows :-

4.3.1 Specialist Assignments will be made at the discretion of the Director-General's representative with the assistance of computerised processing of the Roster.

4.3.2 Every assignment, other than a Specialist Assignment, or an assignment for which there is no appropriate category of competence, will, in the first instance, be regarded as a Routine Assignment and dealt with by computerised processing of the Roster.

4.3.3 Where computerised processing of the Roster fails to result in the nomination of a suitable Firm, or Office, for a Routine Assignment or where there is no appropriate category of competence, the assignment will be classified as a Complex Assignment and dealt with in the manner laid down by the Director-General's representative.

4.4 COMPUTERISED PROCESSING OF ROUTINE ASSIGNMENTS

Routine Assignments will be made by computerised processing of the Roster based on the following criteria:

4.4.1 A one principal firm will not be permitted to execute a Routine Assignment if the fee value exceeds R300 000 unless it enters into a Structured Joint Venture with an APSP nominated by computer selection from the Roster within a 200 km radius; failing which a non-APSP within the original search radius will be nominated. The Participation Parameter in such a joint venture shall not be less than 0,5.

4.4.2 The discipline(s) and sub-discipline(s) in which the Office is registered as being competent must be appropriate to the nature of the assignment (See Annex F).

4.4.3 The locality of the office must be within a reasonable distance from the focal point of the assignment. The minimum number of offices for a given fee value, qualified in terms of criteria 4.4.1 and 4.4.2, and located within a prescribed radius for a selection to be made is as follows:

Minimum number of offices	Prescribed radius	Fee value (R)
1	50 kilometre	# R40 000
2	50 kilometre	R40 000 – R300 000
3	100 kilometre	greater than R 300 000

Should less than the requisite number of Offices be located within the prescribed radius, the radius will be increased by increments of 50 km in an effort to meet the criterion. At a radius of 200 km, the criteria will fall away and the selection will proceed irrespective of the number of suitable Offices located within the 200 km radius.

- 4.4.4 The Firm, or Office, nominated by the computerised selection process for a Routine Assignment will be the Firm, or Office, nearest the top of the Roster which complies with the applicable criteria and the assignment will be offered to such Firm, or Office, subject to the procedure set out in Section 7 hereof being followed.
- 4.4.5 If the fee estimate is in excess of R750 000 and the nominated Firm is not an APSP, the APSP which is closest to the top of the Roster and which has indicated that it wishes to open up an Office in the locality, will be invited to enter into a Structured Joint Venture with the nominated Firm in terms of which the Participation Parameter will be not less than 0,35.

4.5 COMPUTER ASSISTED PROCESSING OF SPECIALIST ASSIGNMENTS

Specialist Assignments will be made by computerised processing of the Roster based on the following criteria:

- 4.5.1 The specialist discipline / sub-discipline in which the Office is registered as being competent must be appropriate to the nature of the assignment (See Annex F).
- 4.5.2 The locality of the Office, should the assignment be such as to necessitate an unusually high number of visits to the DPW offices in Pretoria, or to a site.
- 4.5.3 The three Firms, or Offices, nearest the top of the Roster which comply with the applicable criteria will be invited to provide details of their specialist expertise, subject to the procedure set out in Section 7 being followed.

If the search of the Roster fails to nominate three Firms, or Offices, the assignment will be classed as a Complex Assignment.

4.6 CHANGES IN THE STATUS OR POSITION OF A FIRM ON THE ROSTER

- 4.6.1 Preferred Firm status will be reviewed immediately after an assignment is awarded to a Preferred Firm in order to determine where the Firm will subsequently be placed on the Roster. Preferred Firms must confirm their Preferred status by submitting either the Confirmation of ASPS Registration (see Annex C2) or Confirmation of Transforming Firm Registration (see Annex D2) with their letter of acceptance. Failure to submit such confirmation will result in Preferred Firms being treated as non-Preferred Firms
- 4.6.2 When a Firm, or Office, has been awarded an assignment, save as provided for in 4.6.3 below, it will immediately be moved to the bottom of the Roster, provided that, if such a Firm, or Office, is a Preferred Firm, it will be moved to a position calculated as follows:

New relative position on roster from top after appointment = $T_{Active} \times A / 100 \times W_{PF}$

Where:

$A = 100 / (6,01 - 1,18 \times \ln (T_{PF \text{ in a province}} / T_{FIRMS \text{ in a province}} \times 100))$

subject to A being less than 100 and greater than or equal to 20
 T_{Active} = total number of active Firms and Offices on the roster
 $T_{PF \text{ in a province}}$ = total number of active Preferred Firms (Firms and Offices) in the province within which the Firm or Office which is to be repositioned on the Roster is located

$T_{\text{FIRMS in a province}}$ = total number of active Preferred Firms and non-Preferred Firms and Offices in the province within which the Firm or Office which is to be repositioned on the Roster is located.

W_{PF} = weighting factor in respect of :

- APSP = 1,0
- APSP(priority population) = 0,75
- APSP(women) = 0,67
- Transforming Firm (PDI) = 1,3
- Transforming Firm (Women)= 1,6

4.6.3 The position of a Firm or Office which obtains a Routine Assignment having an estimated fee value, exclusive of VAT, of less than R40 000, will remain unchanged on the Roster.

4.6.4 The position of a firm which obtains a Specialist Assignment or Complex Assignment will remain unchanged on the Roster if :

- the estimated fee value does not exceed R 40 000; or
- the appointed Firm is required to appoint and co-ordinate a team of industry specialists to satisfy the brief.

Where neither of the above criteria is applicable, the provisions of 4.6.2 shall apply.

4.6.5 The positions of both Firms in a Structured Joint Venture will, except where the Structured Joint Venture was formed voluntarily in terms of Section 7, be dealt with in terms of the provisions of 4.6.2 to 4.6.4 above.

4.7 OUTSOURCING TO OTHER FIRMS

No Firm or Office undertaking a Routine Assignment will be permitted to outsource activities which it has the in-house competence and expertise to perform. Structured Joint Ventures between non-APSPs and APSPs will, normally, be acceptable to the DPW (see subsection 7.1).

5. REGISTRATION ON THE ROSTER

Any Firm or Office will qualify for registration on the Roster provided that it meets DPW's requirements regarding Professional Indemnity Insurance, although this requirement can be relaxed in the case of an APSP.

Registration of Firms and Offices on the Roster will be dealt with on the following basis :

- Firms and Offices applying for registration will give details of their Principals, resources, fields of expertise, locations and Professional Indemnity Insurance cover (Annex B). Firms will be required to update their registration particulars whenever a significant change in their above mentioned details occurs and, in any event, at intervals of two years.
- Only Firms and Offices which are registered with DPW as Preferred Firms and have completed the Declaration contained in Annex C1 or D1 or have confirmed their current status in terms of Annex C2 or D2_ will be regarded as Preferred Firms for the purpose of the Roster and shall remain as such until they no longer comply with the definition of a Preferred Firm as given in Annex A.
- Where Firms of the same name exist as different legal entities in different localities, each legal entity may register separately on the Roster.

- No individual may be a Principal of more than one Firm, on the Roster in the same province unless such Firm practices different Disciplines and specialist general competencies as set out in Annex F.
- The information required in terms of Annex B will enable the DPW to determine whether the Firm, or Office, meets the criteria for classification as such.
- A Firm, or Office, which enjoys APSP status may be registered on the Roster without Professional Indemnity Insurance, but will be expected to obtain such insurance upon receipt of an appointment from the DPW.
- A Firm which enjoys APSP status will be permitted to nominate not more than two localities in addition to its registered locality, at which it may wish to open up an office to enable it to work in Structured Joint Ventures with established Firms.

6. POSITION ON THE ROSTER

Firms and Offices added to the Roster after 15 October 1999 will be placed at the bottom of the Roster if they do not enjoy APSP status, or at the position calculated in accordance 4.6.2 should they enjoy Preferred Firm status.

NOTE: The Department, prior to October 1999, called for applications for admission to the roster. Firms and Offices which responded to this call were placed on the Roster in a random, computer-generated order in such a manner that all APSPs were within the upper section of the Roster, commensurate with the percentage of APSP to total Firms and Offices on the Roster.

7. ASSIGNMENT AWARDS

7.1 JOINT VENTURES

Any Firm, or Office, which is offered a Routine or Specialist Assignment, may wish to set-up a Structured Joint Venture whereby the assignment would be undertaken by an APSP working with a non-APSP Firm, or Office. Such a proposal will, normally, be acceptable to DPW provided that the Participation Parameter is not less than 0,5.

Alternatively, the Director-General's representative may, at his discretion, decide that the award of an assignment should be conditional on the establishment of a Structured Joint Venture between an APSP Firm and a non-APSP Firm, one of which would have been nominated by computerised selection from the Roster and the other nominated by the Director-General's representative.

7.2 PROCESS OF APPOINTMENT

The process followed by the DPW in making an appointment to a Firm, or Office, to be nominated from the roster will be as follows :

- Prepare a brief for the project and the services required from the Firm, or Office.
- Prepare estimates of project cost, duration and fees.
- Prepare a search request (Annex E) and obtain a computer-processed nomination(s).

ROUTINE ASSIGNMENTS

- Inform the nominated Firm or Office, giving it the brief and the estimates, and, if the estimated fee for the assignment exceeds R300 000, request a Project Execution Plan within a specific period or, if the estimated fee does not exceed R300 000, request a categorical assurance that the Firm, or Office, possesses adequate, available staff and resources to undertake the assignment within the required period.
- On the basis of the Project Execution Plan, or the resources assurance, decide whether the Firm or Office is to be appointed and, if so, confirm the appointment. If not, the nominated Firm or Office will be informed and the process repeated.

SPECIALIST ASSIGNMENTS

- Invite the nominated Firms and Offices to submit details of their specialist expertise and curriculum vitae of specialists, giving each the brief and a request for a Project Execution Plan within a specified period, if the estimated fee for the assignment exceeds R300 000.
- On the basis of the Project Execution Plan and the expertise available, recommend to the Director-General's representative the most appropriate Firm or Office for the award of an assignment. If no Firm or Office is suitable, the Firms and Offices will be notified and the process repeated.

- 8.1 The Project Execution Plan to be prepared by the nominated Firm or Office is an important factor in the appointment. The Project Execution Plan should be prepared within a stipulated time and be based on the project brief and the Department's Standard Guidelines for preparing a Project Execution Plan.
- 8.2 A Firm, or Office, may decline an appointment only on grounds of insufficient capacity.
- 8.3 The Project Execution Plan will form the basis for monitoring the Consultant's performance on the project and failure to comply with the commitments therein, unless formally condoned by the Department because of circumstances which may arise, may incur penalties in regard to future appointments.

8.4 The Project Execution Plan must respond to the project brief and must furnish the following :

- The names of the Consultant's representative continuously responsible for the project (CV to be included)
- An organogram for the project.
- Details of staff and other resources required for the project, identifying which of these resources are available from within the Consultant's own organisation.
- A breakdown of work between the Firms comprising any Structured Joint Venture, if applicable.
- Joint Venture Participation Goal Implementation Plans and Joint Venture Disclosure forms in respect of Structured Joint Ventures. (Refer to Annexes B and C of the TP3 (APP3) specification).

8.5 Should the Department decline two successive PEPs submitted in respect of the same appointment by a Firm or Office, it will withdraw the offer of an appointment and reposition the Firm or Office on the Roster as if it had received an appointment in terms of 4.6.2.

9. PROFESSIONAL INDEMNITY INSURANCE

9.1 Where the DPW considers professional indemnity insurance cover to be warranted because of the size, or nature, of a particular project, the limit of indemnity and the first amount payable will be indicated to potential appointee Firms prior to appointments being finalised.

ANNEX F

FIELDS OF COMPETENCE

NOTE : 1 The Roster defines :

Routine Assignments as being assignments where the tasks are of a straight forward nature involving in the main, standard technologies in terms of which inputs are relatively well known and outputs can be readily defined.

Specialist Assignments as being assignments in which the bulk of the services involves technically complex work which calls for considerable innovation, creativity, expertise and/or skills. Such assignments may be characterised by ill-defined inputs and outputs.

2 Suffix(s) denotes specialist category service. All other categories are for Routine Assignments. Headings are for reference only.

3 **Specialist assignments** will be made where the category of service is designated as being specialist with the suffix(s); **Routine assignments** will be made in respect of non-specialist categories. Up to three categories of non-specialist services may be taken into consideration when making a computer-based selection for **Routine Assignments**, whereas only one specialist service will be considered for a Specialist Assignment. There is accordingly some overlap in services between those designated as being non-specialist and those designated as being specialist. For example, the brief for a **Routine Assignment** involving structural services for a low rise building may include services in respect of foundation investigations. However, the services for foundation investigations usually form a small part of the overall assignment and may in any event, under certain circumstances, be outsourced to a specialist firm. A **Specialist Assignment** for foundation investigations will only be made where the bulk of the work involves this service.

4 Fields of competence for Routine Assignments should not be confused with fields of experience. Applicants should fill in the fields in which they have the necessary competence to provide the service required and the desire to do so.

5 Applicants who fill in specialist categories of service must have competence and experience in these fields.
