#### 1. Introduction

Section 32 in the Constitution of the Republic of South Africa Act, 1996, stipulates that everyone has the right of access to (a) any information held by the State, and (b) any information that is held by another person that is required for the exercise or protection of any rights and that national legislation must be enacted to give effect to this right.

The Promotion of Access to Information Act, 2000 (Act No. 2 of 2000), hereafter referred to as "the Act", gives effect to the constitutional right of access to information held by any public or private body that is required for the exercise or protection of any rights. It also details the procedures to be followed when requesting information held by either a public or private body.

However, section 9 of the Act recognises that the right to access to information is subject to certain justifiable limitations that include, but are not limited to:

- The reasonable protection of privacy;
- · Commercial confidentiality; and
- Effective, efficient and good governance.

Section 14 of the Act obliges public bodies to compile a manual that assists a person in obtaining access to information held by that public body. It also stipulates the minimum requirements with which such a manual has to comply.

The purpose of this manual is, therefore, to inform a person on how to obtain access to records held by the Department of Public Works, hereafter referred to as the "DPW" or "the Department", thus giving effect to section 14 of the Act.

# 2. Human Rights Commission Guide on how to use the Act [Section 14(1) (c)]

#### 2.1 Legitimate mandate

The South African Human Rights Commission compiled a guide, in an easily comprehensive form and manner, as may be required by a person who wishes to exercise any right contemplated in the Act. This guide is available in all the official languages from the South African Human Rights Commission.

#### 3. Strategic information of the Department

#### 3.1 Vision

A service-oriented Public Works Department focusing on the formulation of legislative prescripts and policy to support the delivery of sound immovable asset management while contributing to the national agenda for social and economic development.

#### 3.2 Mission

The Department strives to drive a professional, innovative and integrated Public Works Department by:

- setting legislative and policy prescripts together with norms and standards for the management of state-owned and leased-in accommodation, land and infrastructure for the Public Works sector;
- supporting provinces to fulfil the concurrent functions and service delivery obligations in the Public Works sector;
- contributing to the national goals of job creation and poverty alleviation through the coordination of the Expanded Public Works Programme (EPWP);
- providing guidance to our stakeholders to facilitate delivery in the built environment within the context of Department's mandate; and
- Affording strategic leadership to the South African construction and property industries.

#### 3.3 Values

The core values of the Department are underpinned by the Batho Pele principles, and are augmented by the following values:

- **Integrity**: by consistently honouring our commitments, upholding ethical, honest behaviour and transparent communication;
- Professionalism: by treating our stakeholders with respect and reliably delivering against expectations;
- Teamwork: by respecting diversity while sharing a common purpose and working together in cooperation with each other; and
- **Innovation**: by tirelessly seeking opportunities for service delivery improvement by thinking freely and not bound by old, non-functional, or limiting structures, rules, or practices.

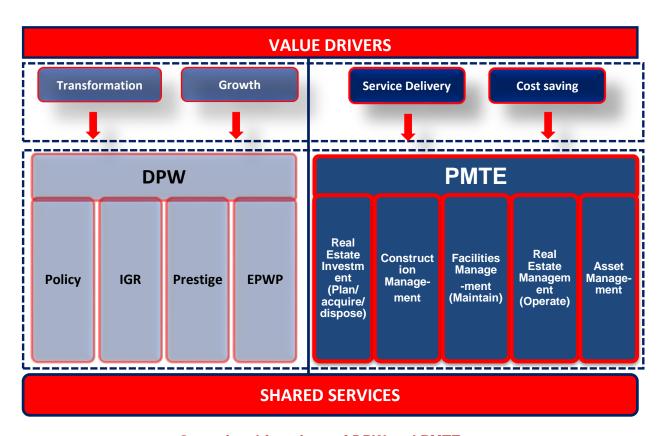

#### 3.4 Strategic outcome-orientated goals

In order to execute its mandate competently, the Department has identified five strategic outcome-orientated goals that define its direct service delivery responsibilities. These goals are:

- Sound legislative and policy prescripts to accelerate service delivery;
- Oversight, leadership and support to provincial departments of public works;
- Coordination of the EPWP for the creation of decent employment through inclusive economic growth;
- Strategic leadership and regulation of the construction and property sectors to stimulate economic empowerment and skills development; and
- Good corporate governance to support proficient service delivery.

#### 3.5 Value drivers

The figure below illustrates the value drivers of the Department and the Property Management Trading Entity (PMTE).

**Operational functions of DPW and PMTE** 

#### 3.6 Composition of Public Works

The Department redefined and transposed its functions for seamless service delivery and operational excellence. The functions were refined into:

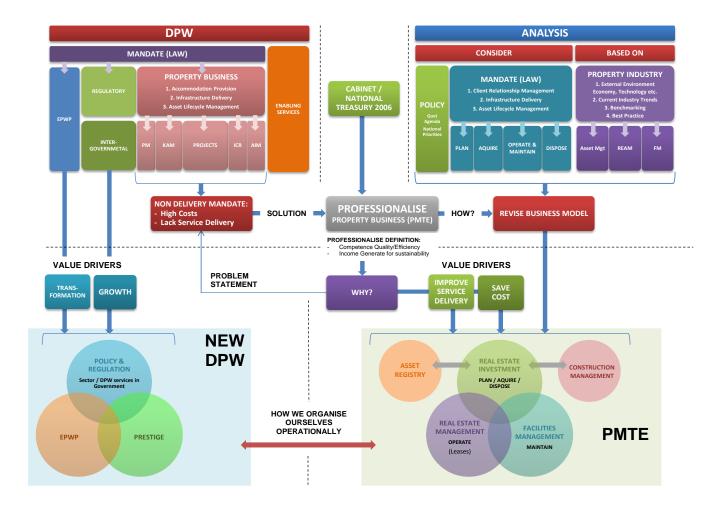

- Policy, regulatory and Prestige Policy;
- Quality norms and standards setting and monitoring;
- Support and shared services, and
- Service delivery.

The service delivery functions consist of a newly established government component, the PMTE, which constitutes 75% of the functions and budget of the Department. It is responsible for the immovable asset management functions across the asset life cycle to ensure that optimal value for money is gained. This achievement should be reflected in a better rate of return on investment in the public estate, closer to market-related value.

The model below depicts the new core business areas of the Department: regulation and transformation of the built environment, oversight and coordination of entities, and provincial departments of public works as part of the concurrent mandate.

Through this separation of functions, and coordination and quality of services there is a great potential to integrate services better and build synergies that will result in a single point of entry and account management for public sector clients. This will result in greater service satisfaction in relation to business needs.

The creation of a client-centric agency with greater levels of autonomy will also ensure that services are delivered at higher standards, more timeously and offer better value for money. Duplication of functions across the service, together with the associated costs, will be eradicated and effective interfaces between functions, regional offices and Head Office, will be established.

The main objectives of the PMTE are to:

- Professionalise and improve management of the State's property portfolio;
- Implement cost savings to user departments;
- Improve the quality of government services to the public by improving access and the quality of public buildings;
- Utilise the State's vacant properties productively; and
- Leverage the State's property portfolio to empower emerging black business and create employment.

The establishment of the PMTE will result in a separation of the functions. The PMTE will become the delivery vehicle to ensure an integrated approach to optimise the life cycle of State immovable assets from planning to decommission. The Department will focus on the development of best practices within the sector.

The transformation and growth of the construction and property sectors, the regulatory functions, policy setting, best practices, norms and standards and the coordination of the EPWP will be located in the Department.

#### 7. Request procedure

Any existing recorded information in the possession of the Department of Public Works may be requested. However, in terms of section 22(1) of the Act, a requester who seeks access to a record containing personal information about the requester is not required to pay the request fee.

#### 7.1 Process

In order to process a request for information in terms of the Act, the Department has implemented the following process:

#### 7.1.1 Step 1: Application process

To request information the requester should complete the request form (see Appendix: Form A) and submit it using any of the following options:

#### By hand:

#### **Chief Information Officer of the Department of Public Works**

CGO Building, Corner Bosman and Madiba Streets Pretoria, 0001

#### By post:

#### **Chief Information Officer of the Department of Public Works**

Private Bag X65
Pretoria

0001

#### By fax:

+27 86 276 8663

OR

#### By email:

#### Info.paia@dpw.gov.za

As prescribed by the Act an amount of R35,00 must accompany the request for information. This is payable by cheque, made out to Department of Public Works marked not negotiable and non-transferable; postal order or deposited into the Department's bank account (proof of deposit must accompany the request form):

#### **Account details**

Name of account holder: Department of Public Works

#### **ABSA**

Branch number: 632 005

Account number: 4053 9579 29

Type of account: Cheque

#### 7.1.2 Step 2: Validation and acknowledgement

The Information Officer of the Department receives and validates the request to see whether the required information is available in the Department. The request is accepted, rejected or transferred to the relevant designated Deputy Information Officer. An acknowledgement correspondence is forwarded by the Information Officer to the requester to confirm the status of the request.

#### 7.1.3 Step 3: Information processing

If the request is accepted, the Department will gather and prepare the information and calculate the relevant cost involved.

#### 7.1.4 Step 4: Final notification

The requester will be informed of the finalisation of the request as well as the outstanding fees payable to the Department.

#### 7.1.5 Step 5: Payment and delivery

Once the payment stipulated in Step 4 has been received (following the same payment process as stipulated in Step 1), the information will be released to the requester.

#### 7.2 General information

The prescribed form must be filled in with enough details to enable the Information Officer to identify the record or records requested; the identity of the requester; and the form of the required record. It should also state whether the request is granted and include the postal address or fax number of the requester.

The requester must indicate whether the request is for a copy of the record or inspection of the records at the offices of the Department.

Access to the aforesaid information will only be granted to the requester in the form requested, unless to do so would unreasonably interfere with the running and operation of the Department, damage the record or infringe a copyright not owned by the State.

If for practical reasons access cannot be given in the requested form, but in an alternative form, the fee for access will be calculated according to the form that the requester had requested.

If a requester is unable to read or write or has a disability, he/she may make the request for a record orally; the Information Officer will complete the form.

The requester must state that he/she requires the information in order to exercise or protect a right and clearly state the nature of the right to be exercised or protected.

The Department will process the request within 30 days, unless the requester has stated special reasons, which would satisfy the Information Officer that circumstances dictate that the above time periods should not be complied with.

The 30 day period within which the Department has to decide whether to grant or refuse the request may be extended for a further period of not more than 30 days, if the request is for a large amount of information, or the request requires a search for information held at another office of the Department and the information cannot reasonably be obtained within the initial 30 day period. The Department will notify the requester in writing should an extension be sought.

If a request is made on behalf of another person, the requester must submit proof of the capacity in which the requester is making the request, to the reasonable satisfaction of the Information Officer.

The requester must pay the prescribed fee, before any further processing can take place.

#### 8. Fees

#### 8.1 The Act provides for two types of fees:

A request fee, which is a standard fee; and an access fee, which must be calculated by taking into account reproduction costs, search and preparation time and cost, as well as postal costs. When the request is received by the Information Officer, such officer must by notice require the requester, other than a personal requester, to pay the prescribed request fee (if any), before further processing of the request.

If search for the record has been made and the preparation of the record for disclosure, including arrangement to make it available in the requested form, requires more than the hours prescribed for this purpose, the Information Officer must notify the requester to pay as a deposit the prescribed portion of the access fee, which would be payable if the request is granted.

The Information Officer must withhold a record until the requester has paid the fees. A requester whose request for access to a record has been granted must pay an access fee for reproduction and for search and preparation, and for any time reasonably required in excess of the prescribed hours to search for and prepare the record for disclosure, including making arrangements to make the record available in the requested form. If a deposit has been paid in respect of a request for access which is refused the Information Officer concerned must repay the deposit to the requester.

#### 8.2 Fees in respect of Public Bodies

For purposes of section 22(2) of the Act, the following applies:

- (a) six hours as the hours to be exceeded before a deposit is payable; and
- (b) one third of the access fee is payable as a deposit by the requester.

#### 8.3 Description amount (R)

The request fee payable by every requester, other than a personal requester, referred to in regulation 7(2) is R35,00. The fee for a copy of the manual as contemplated in regulation 5(c) is R0,60 for every photocopy of an A4-size page or part thereof.

#### 8.4 Reproduction fees

#### The fees for reproduction referred to in regulation 7(1) are as follows:

- 1) For every photocopy of an A4-size page or part thereof R0,60

- (7) For purposes of section 22(2) of the Act, the following applies:
  - (a) Six hours as the hours to be exceeded before a deposit is payable; and
  - (b) one third of the access fee is payable as a deposit by the requester.
- (6) The actual postage is payable when a copy of a record must be posted to a requester.

#### 9. Granting/refusal of requests

#### 9.1. Refusal of request

The main grounds for the Department to refuse a request for information relates to:

- Mandatory protection of the privacy of a third party who is a natural person if disclosure would involve the unreasonable disclosure of personal information of that natural person;
- Mandatory protection of the commercial information of a third party if the record contains trade secrets of a third party; financial, commercial, scientific or technical information which if disclosed could likely cause harm to the financial or commercial interests of that third party;
- Information disclosed in confidence by a third party to the institution if the disclosure could put that third party at a disadvantage in negotiations or commercial competition;
- Mandatory protection of confidential information of third parties if it is protected in terms of any agreement;
- Mandatory protection of the safety of individuals and the protection of property;
- Mandatory protection of records which would be regarded as privileged in legal proceedings;
- The commercial activities of the Department, which may include: trade secrets
  of the Department; financial, commercial, scientific or technical information
  which if disclosed could likely cause harm to the financial or commercial
  interests of the Department; and information which if disclosed could put the
  Department at a disadvantage in negotiations or commercial competition;
- A computer programme that is owned by the Department and protected by copyright; and
- Mandatory protection of research information of the Department or a third party
  if the disclosure of that information would disclose the identity of the
  Department, the researcher or the subject matter of the research, and would
  place the research at a serious disadvantage.

Requests for information that are clearly frivolous or vexatious, or which involve an unreasonable diversion of resources will be refused.

#### 9.2 Appeal

A requester may lodge an internal appeal against a decision of the Information Officer of a public body to refuse a request for access; or taken in terms of section 22, 26(1)

or 29(3), in relation to that requester with the Minister of Public Works or the person designated in writing by the Minister.

A third party may lodge an internal appeal against a decision of the Information Officer of a public body to grant a request for access.

#### 9.3 Manner of appeal, and appeal fees

An internal appeal must be lodged in the prescribed form within 60 days; if notice to a third party is required by section 49(1)(b), within 30 days after notice is given to the appellant of the decision appealed against or, if notice to the appellant is not required, after the decision was taken.

The appeal must be delivered or sent to the Information Officer of the public body concerned at his/her address, fax number or electronic mail address.

The appeal must identify the subject of the appeal and state the reasons for the internal appeal and may include any other relevant information known to the appellant.

If, in addition to a written reply, the appellant wishes to be informed of the decision on the internal appeal in any other manner, he/she must state that manner and provide the necessary particulars to be so informed. The appeal must, if applicable, be accompanied by the prescribed appeal fee, and must specify a postal address or fax number.

If an appeal is lodged after the expiry of the period referred to, the Minister of Public Works or the person designated in writing by the Minister must, upon good cause shown, allow the late lodging of the appeal.

If the Minister or the person designated in writing by the Minister disallows the late lodging of the appeal; he or she must give notice of that decision to the person who lodged the appeal.

A requester lodging an appeal against the refusal of his or her request for access must pay the prescribed appeal fee (if any). If the prescribed appeal fee is payable in respect of an appeal, the decision on the appeal may be deferred until the fee is paid.

As soon as reasonably possible, but in any event within 10 working days after receipt of an appeal, the Information Officer of the public body concerned must submit to the Minister or the person designated in writing by the Minister the appeal together with his or her reasons for the decision concerned; and if the appeal is against the refusal or granting of a request for access, the name, postal address, phone and fax number
