The tenderers should have a CIDB contractor grading designation of:

**5 GB or higher.**

**Company Name:** \_\_\_\_\_

**CSD Number:** \_\_\_\_\_

**CIDB CRS Number:** \_\_\_\_\_

**As part of the tender submission, Bidders are required to indicate their preferred District(s) which must be in line with their designated CIDB grading.**

**eThekwini District**

**Umgungundlovu District**

The Department reserves the right to **NOT Award more than two (2) Districts per Successful Tenderer.**

**BIDDERS TO TAKE NOTE OF THE FOLLOWING COMPULSORY  
CONDITIONS OF TENDER:**

**At a time of tender closing, bidders to note the following for evaluation purposes.**

The minimum capacity for one District is 3 Qualified Artisans per trade of Carpentry, Bricklaying and Plumbing along with 1 technician in a field of building or civil engineering, 5 Bakkies/Light deliver vehicle, 5 scaffoldings and 5 jetting machine. Service provider(s) will be evaluated and allocated up to the maximum of 2 districts provided their resources meet the stipulated requirements of functionality criterion per district, this is to ensure equitable distribution of work.

Awarded Bidder to provide a work plan coupled with site specific Safety Plan indicating risk assessments

The contractor indemnify to report to site within 3-24 hours to make safe or perform the necessary repairs. Failure to report to site for a consecutive period of 48 hours the necessary penalties shall be applied

Each district will be evaluated independently i.e. what is a requirement in each district will be uniquely applicable to that district. This is to ensure that successful bidders have adequate resources to execute required services expeditiously. Should they then be eventually awarded for more than one district, e.g. if a tenderer is evaluated for two districts therefore he/she needs two teams and it will be mandatory to submit proof of each team as indicated in the functionality criterion. A team in this instance is referring to resources (key personnel & equipment) as listed in the functionality criterion. Bidders are to indicate the names of the districts along with names of key personnel and resources falling under that particular district on the table provided at the end of this document

The Department reserves the right NOT to appoint If you have an existing contract within the Department that is still within 24 months of contract at the time of closing. Similarly, if you have two (2) or more existing contracts with the department, you will not be considered. Furthermore, sub-contracting work is subject to verification, where the Main contractor's work would be verified. Additionally, a sub-contracting agreement indicating the bidder's scope of work shall accompany the signed award and completion letter/certificate.

**Criteria for Distribution of Work during evaluation:**

**Bidders are to note that this is a series contract covering the whole KZN region, though advertised in categories of various applicable gradings as per the relevant CIDB threshold.** Tenderers who bid for multiple Districts must note that only one district will be evaluated and allocated if successful. Until such a time all other qualifying tenderers have been given the same opportunity to be evaluated and allocated the district, irrespective of the price being the lowest.

Once all the qualifying tenderers have been evaluated and allocated a district, tenderers can then be allocated the second district they qualify for in terms of price. This sequence is applicable up to the maximum of two districts per bidder In order to ensure fair and equitable distribution of work.

**Budget constraints:**

The appointed service provider would sign a binding service level agreement with a clause asserting that maintenance will be done as and when it is required, therefore the approved bidder's offer may not be entirely spent over the 36-month term. And that the department reserves the right to terminate the contract owing to funding constraints while the contract period is still active.

## 23. IDENTIFIED PROJECTS

23.1. The Service Provider shall inform the Employer of any instructions that are deemed to be Identified Projects prior to such instructions being executed.

23.2. The Employer is not obliged to engage the services of the Service Provider on Identified Projects. The Employer may, by itself, through another service provider or through the Service Provider effect the services/works under Identified Projects.

23.3. Identified Projects will only be executed by the Service Provider after receipt by him of a written instruction from the Service Manager.

23.4. If no prior written authorisation, as required in 23.3 above, has been obtained, the Employer shall not reimburse the Service Provider for the Identified Projects so executed, and the Service Provider agrees that it shall not have a claim for payment for such Identified Projects.

23.5. In respect of the Identified Projects, the written instruction referred to in 23.3 shall:

- (a) describe the services/works required to be executed by the Service Provider under the Identified Project;
- (b) state the due commencement and completion dates of the relevant Identified Project;
- (c) state the total cost of the relevant Identified Project as agreed to between the Parties; and
- (d) any additional requirements, conditions of contract and/or restrictions, other than those already stated in the Contract, that will be applicable.

23.6. Within 14 days of receipt of the written instruction referred to in 23.5, the Service Provider shall furnish the Employer with a realistic programme and a cash flow for the relevant Identified Project as required in 13.

- 23.7 Where an Identified Project comprises services/works that are of the same or similar character executed under the same or similar conditions as those to which the rates in the Pricing Data apply, it shall be valued at such rates.
- 23.8 Where an Identified Project comprises services/works that are not of the same or similar character executed under the same or similar conditions as those to which the rates in the Pricing Data apply, it shall be valued at market related rates to be agreed in writing between the Employer and the Service Provider and in advance of executing the Identified Project. Failing agreement, the rates applicable shall be as determined by the Employer.
- 23.9 If the Service Provider fails to complete the Identified Project by the completion date specified in the written instruction referred to in 23.3, then the Service Provider will be liable for a penalty, at the rate stated in the Contract Data, for every day that lapses from the due completion date of the relevant Identified Project to the date of the actual completion of such Identified Project.
- 23.10 If the Identified Projects are delayed by variations, omissions, additions, substitutions or organised work stoppages by any workman not due to any action on the part of the Service Provider, exceptionally inclement weather, any substantial increase in provisional quantities or any other cause beyond the Service Provider's control, including delays caused by the Employer, then the Service Provider shall be entitled to apply in writing within 21 days of the cause of delay arising to the Service Manager for extension of the due completion date of the relevant Identified Project stating the cause of delay and period of extension applied for.
- 23.11 If during the period for completion of the Identified Project or any extension thereof abnormal rainfall or wet conditions occur, the formula below shall be used to calculate separately the delay for each calendar month or part thereof. It shall be calculated each month during the period referred to herein above, or until the issue date of the certificate of completion for the relevant Identified Project, whichever is the shorter period. The delay calculated for a given month shall be used to determine the interim extension of time granted for the month. At the end of the applicable period referred to above, the aggregate of the monthly delays will be taken into account for the final determination of the total extension of time for the Contract:

$$V = \frac{(Nw - Nn) + (Rw - Rn)}{X}$$

- V = Delays due to rain in calendar days in respect of the calendar month under consideration.
- Nw = Actual number of days during the calendar month on which a rainfall of Y mm or more per day has been recorded
- Rw = Actual rainfall in mm for the calendar month under consideration.
- Nn = Average number of days in the relevant calendar month (as derived from existing rainfall records provided in the project specifications) on which a rainfall of Y mm or more per day has been recorded.
- Rn = Average rainfall in mm for the calendar month, as derived from the rainfall records supplied in the project specifications.
- X = 20, unless otherwise provided in the project specifications.
- Y = 10, unless otherwise provided in the project specifications.

The total delay that will be taken into account for the determination of the total extension of time for the Contract shall be the algebraic sum of the monthly totals for the period under consideration. But if the grand total is negative, the time for completion shall not be reduced on account of abnormal rainfall. The total extension of time for any calendar month shall not exceed (Nc - Nn) calendar days, where Nc = number of days calendar days in the month under consideration

The factor (Nw - Nn) shall be considered to represent a fair allowance for variations from the average number of days during which rainfall equals or exceeds Y mm per day.

The factor  $(R_w - R_n) \div X$  shall be considered to represent a fair allowance for variations from the average for the number of days during which rainfall does not equal or exceed Y mm per day, but when wet conditions prevent or disrupt work.

This formula does not take into account any flood damage, which could cause further or concurrent delays and which should be treated separately in so far as extension of time is concerned.

Accurate rain gaugings shall be taken at a suitable point on the site daily at 08:00 unless otherwise agreed to by the Service Manager, and the Contractor shall, at his own expense, take all necessary precautions to ensure that the rain gauges cannot be interfered with by unauthorized persons.

Information regarding existing rainfall records, if available from a suitable rainfall station near the site, will be supplied in the project specifications, together with calculations of rain delays for previous years in accordance with the above formula. The average of these delays will be regarded as normal rain delays which the Contractor shall accommodate in his programme, and for which no extension of time will be considered.

- 23.12 Upon receipt of such written application, referred to in 23.10, the Employer may in writing extend the due completion date of the relevant Identified Project by a period to be determined by the Employer or may refuse to extend the due completion date of the relevant Identified Project. The due completion date of an Identified Project may not be extended beyond the end of the Contract Period stated in the Contract Data.
- 23.13 Any decision given by the Employer, in terms of 23.12, shall be final and binding on the Parties.
- 23.14 Should the Service Provider fail to apply in writing for an extension of the due completion date of the relevant Identified Projects within the 21 days referred to in 23.10, or should the Employer not grant an extension of the due completion date then the due completion date stipulated in the relevant written instruction referred to in 23.5 shall not be extended nor the Service Provider exonerated from liability to pay the penalty stipulated in 23.9 or from specific performance of the service/works within the period in the relevant written instruction.

- 24.2 If the Service Provider is instructed in writing by the Service Manager to suspend any or all of the Services, the Service Provider shall re-schedule the relevant Services. For the duration of such suspension all penalties applicable to that Service will be waived. Should the Service Provider suffer any additional costs resulting from such suspension, the Service Provider shall be entitled to make a claim therefor provided that the Service Provider shall prove his claim and that he has taken all reasonable steps to mitigate the additional costs.
- 24.3 If the Service Provider is unable to render any of the Services for any reason other than an instruction by the Employer to suspend the Services in terms of clause 24.1, the Employer shall not be liable for any claim of whatever nature, including a claim for costs, by the Service Provider.

VAT)
- 26.4 The monthly certificate shall be supported by a detailed report substantiating the Services rendered at each Facility during the month under assessment.
- 26.5 The monthly certificate shall be assessed by the Service Manager. If the Service Manager agrees with the certificate, he will issue a statement within 14 days of the receipt of the certificate, taking into account inter alia the following:

The selection of such third persons shall be in the absolute discretion of the Employer and the Service Provider shall abide by such selection.

26.13 Any and all extra costs incurred by the Service Provider, resulting from the Service Provider having to address and/or rectify queries arising from a claim submitted in respect of work done, shall be for the account of the Service Provider.

## **27. RELEASE OF SECURITY**
