QUESTIONNAIRE PART C: JOB CREATION

Tenants to complete the Job Creation Table A for the Current Year. Tenants to duplicate and complete Table B for each Year of the Proposed Lease Period.

Definitions / Meaning

Part Time Jobs	A part-time job is a form of employment that carries fewer hours per week than a full-time job.
Casual Jobs	Workers who are employed in irregular employment also known as day laborers. Don't receive the benefits of permanent employees
Seasonal Jobs	Seasonal employees fall under the category of part-time employees who work only a few months of the year (during peak demands). Seasonal employees typically don't receive insurance or retirement benefits or qualify for vacation time.
Professional	Professional workers are those with specialised educational training. Traditionally, they have to complete a 4 year degree in college, or more. Most, if not all, have to take a licensure examination in order to practice. Most have to register with a Professional Body
Skilled	Skilled work requires workers to use their judgment to make decisions and may require them to measure, calculate, read, or estimate. Skilled work often has specific qualifications such as educational degrees or professional training and usually requires intellectual reasoning and problem-solving skills. It typically takes six months to a year or more to learn a skilled job.
Semi-Skilled	Semi-skilled work requires paying attention to detail or protecting against risks but it doesn't include complex job duties. Semi-skilled work doesn't require a person to have advanced training or education and typically takes between three and six months to fully learn a semi-skilled job.
Unskilled	Unskilled work involves simple tasks and doesn't usually require one to exercise judgment. It typically requires only a month or less to learn.
