<ol> <li>Purpose         This exercise is aimed at implementing the 2024/2025         Departmental Workplace Skills Plan (WSP) as mandated by the Skills Development Act 9 of 1998 and the National Skills Development Strategy     </li> </ol>				

to address the Departmental skills gaps.

Directorate: Human Resource Development has planned to arrange in-house trainings for efficient and effective coordination of training interventions for officials at Head Office and regional offices. The process will enable the department to close the identified training gaps within different units for enhanced optimal service delivery and realization of the departmental objectives.

# 2. Background

The Department of Public Works and Infrastructure has in line with the National Skills Development Act and Human Resources Development Strategy conducted a training needs analysis in Head Office and Regional Offices for the current financial year to identify the training needs of the Units.

The Training Calendar was developed using the training needs received from the units as well as Personal Developments Plans (PDP's) and request from Gender Unit.

# 3. **Problem Statement**

The Department of Public Works & Infrastructure has identified training needs for its employees for the financial 2024/2025 vear and subsequently developed a Training Plan for effective implementation of the identified skills gaps and therefore requires the services of accredited training services providers to assist in delivering the identified training interventions for capacitation of its employees.

Universal Design and Access course was identified as one of the cross cutting interventions to address the training needs of employees of the The department Department. acknowledges that most of its service delivery key points at National, Regional and Entities level are not fully accessible to persons with disabilities. The aim of the course is to improve participants' knowledge and skills in the theory and practice of inclusive design, planning and the relevant legislations. The focus of course content would be on the built environment, with application in particular to government buildings delivering key services to the public.
