FA 17.03 CORRECTIVE MAINTENANCE

Corrective maintenance of the installations, systems and equipment shall be done in accordance with Additional Specification SA: General Maintenance and the Particular Specification related to this work.

Contractor shall inspect and check all equipment, materials, systems and installations for any pending breakdowns, maladjustments or anomalies of equipment.

Contractor shall report and take actions to correct such defects.

17.04 BREAKDOWN MAINTENANCE

Breakdown maintenance of the installations, systems and equipment shall be done in accordance with Additional Specification SA: General Maintenance.

All A breakdown problems experienced shall be acted upon within the time limitations allowed in the General Maintenance specifications.

All breakdown maintenance shall be done in accordance with the relevant specifications, standards, regulations and codes.

The Contractor shall have access to the necessary spares, equipment and tools for any possible breakdowns.

FA 17.05 OPERATIONS OF BOILERS

It is required in terms of this contract that the Department of Public Works and Infrastructure, in addition to the functions described above, takes over the running and operation of the complete boiler house including the removal and disposal of ash.

Occupational Health and Safety Act

It is required that the boilers be operated at all times strictly in accordance with the regulations and requirements of the Occupational Health and Safety Act (as amended). This covers i.e. the following:

- (1)The boiler operators shall be qualified to operate the boilers in terms of the Act.
- (2)The minimum number of operators required in terms of the regulations shall be adhered to at all times.
- (3)A comprehensive log book shall be kept of all operations carried out on the boilers.
- (4)All statutory tests and requirements shall be met and recorded.
- (5)As some of the boilers are equipped with the new Europac control panels, it is essential that all boiler operators' must provide a boiler **Attendant/Operation certificate** from **accredited institution**. It is paramount that they have the right qualification to operate this type of equipment. (No other certificate will be take to consideration)

Steam Quality and Availability

It is required that steam be produced and be available immediately upstream of all pressure reducing valves and steam using appliances that operate at boiler pressure at a pressure of 700 kPa gauge at all times. This may require that at times two of the three boilers per boiler house operate simultaneously in order to satisfy the steam draw-off requirements of the various appliances. It is estimated that the steam draw-off will amount to approximately

96 tones per day.

The current prison regime requires that steam be available for cooking purposes, laundry operation and domestic hot water production at least between the hours of 22h00 pm to 06h00 am and 06h00 am to 14h00 pm daily (times may vary). After that the banking will however be done in accordance with the manufacturer's specifications at all times.

h Change-over of Boilers

It will be required that the boilers in use be changed in accordance with the manufacturer's specifications in order that the steaming load be spread evenly between the boilers in each boiler house and to provide adequate time for routine maintenance, cleaning and repair (as may be required from time to time).

Maintenance and repair of the boilers shall be carried out as specified elsewhere in this document.

Coal Supply

The coal supply will be the responsibility of the client. The contractor must make sure that the right quality has been delivered. In case there is any deviation from required standard of material it is the responsibility of the contractor to advise the client within a reasonable time period.

Ash Removal

The contractor will be required to arrange for the regular removal of ash from the site. A suitable temporary ash storage space will be not provided by the User Client, but this may not be allowed to become over full resulting in ash being dispersed over the prison premises.

Chemicals and Water Treatment

For this particular installation the contractor shall be responsible for providing the required quality and quantity of chemicals and salts to operate and maintain the coal-fired boilers for a period of his contract. The Contractor shall ensure that the boiler feed water supply to the boiler conforms to the following by providing the required water treatment.

Total dissolved solids	350 mg/litre (max)
ii) Total alkalinity	350 to 700
iii) Caustic alkalinity	350 mg/litre (max)
	150 mg/litre (min)
iv) Phosphate residual	30 to 60 mg/litre
v) Sulphate residual	30 to 50 mg/litre
vii) Calcium hardness	Zero

viii) pH 10,5 to 11,4 mpling and analysing of feed water shall form part of the Contractor's preventative maintenance responsibilities. Monthly reports will be provided to the Technical Maintenance Manager

stating test results and subsequent actions.

The chemicals and water treatment system shall comply in all respects with the specification FA 14 and the boiler manufacturer's requirements.

PA- 29: CERTIFICATION OF INDEPENDENT BID DETERMINATION

Project title:			
Bid no:		Reference no:	

INTRODUCTION

1. This PA-29 [Certificate of Independent Bid Determination] must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
4. This form (PA-29) serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (PA-29) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign the bid, on behalf of the bidder.

 - (a) prices;

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
