Chief Works Manager: S. Zuma – 073 950 1536

NOTE:

- The Awarded Contractor/Bidder shall not commence occupancy or start works on the site until a site hand-over and scope brief has been conducted with the Project Manager. This hand-over and scope review shall include a comprehensive briefing on the project's objectives, scope of work, timelines, and all relevant documentation. The hand-over and scope review will be conducted in person between the Project Manager and Awarded Contractor/Bidder. The Project Manager reserves the right to delay the commencement of works if these requirements are not met. Any failure to comply may result in penalties or termination of the contract as per the terms and conditions outlined in this specification and/or "PA-10 - Facilities management conditions of contract".
- **FAILURE TO SIGN AND SUBMIT THIS SPECIFICATION DOCUMENT WILL RENDER YOUR BID INVALID AND IT WILL NOT BE EVALUATED.**

SECTION A: CONDITIONS OF TENDER & SITE SPECIFICS

1. **Site Familiarization:** Contractor must introduce themselves and detail their operational plan to the relevant official at the institution before any assumption of work (Contact Chief Works Manager). Prior to submitting a quotation, the contractor must conduct a site inspection to ascertain the exact equipment quantities, locations, and current compliance status.
2. **Life-Safety Urgency:** Fire protection systems are critical life-safety infrastructure. The successful tenderer undertakes to commence work immediately upon receipt of an official order number. The maximum contract period is strictly one (1) month from the date of the official order.
3. **Pricing & Re-measurability:** All project costs, including but not limited to labour, replacement parts, test gases, transport, and certification fees, must be strictly and individually itemized on the Bill of Quantities (BOQ).
4. **Final Payment Amount:** The Contractor acknowledges that the total quoted price does not constitute a guaranteed payment amount. Upon completion of the services, all quantities will be subject to on-site re-measurement, and payment will be based strictly on the actual work verified and completed to ensure value for money. The Department reserves the right to amend the final purchase order downwards to align with the lower re-measured quantities; however, under no circumstances will the order amount be amended to a value higher than the original quoted amount.
5. **Occupational Health & Safety (OHS):** The Contractor must comply with all OHS regulations. A comprehensive "Safety Plan" (including procedures for isolating fire panels to prevent false alarms during testing) must be provided to the Chief Works Manager prior to commencement.

SECTION B: STATUTORY REQUIREMENTS, STANDARDS & BY-LAWS

The maintenance and installation of fire equipment in South Africa is strictly governed by law. Ignorance of these laws is not an excuse. Bidders must ensure all works strictly comply with the latest editions of the following South African National Standards (SANS) and legislation:

1. **SANS 10400 - Part T:** National Building Regulations: Fire Protection.
2. **SANS 1475 - Part 1 & 2:** The production, maintenance, and servicing of portable and wheeled fire extinguishers and fire hose reels. (Strict compliance is legally non-negotiable).
3. **SANS 10139:** Fire detection and alarm systems for buildings - System design, installation, and servicing.
4. **SANS 10287:** Automatic sprinkler installations for fire-fighting purposes.
5. **SANS 10105 - Part 1 & 2:** The use and control of fire-fighting equipment.

Occupational Health and Safety Act (Act 85 of 1993): Specifically, regarding the Employer's duty to provide a safe working environment and the Environmental Regulations for Workplaces.

Local Municipal By-Laws: Compliance with Ray local Municipality Fire Services by-laws, specifically regarding the reporting of disabled/faulty fire systems to the Local Fire Chief.

SECTION C: CONTRACTOR QUALIFICATIONS & REGISTRATIONS.

1. In terms of the OHS Act and SANS requirements, the appointed contractor MUST submit valid proof of the following with their bid document. Failure to provide these will render the bid instantly invalid:
2. **SAQCC Fire Registration (Mandatory):** ALL technicians physically working on portable fire extinguishers and hose reels must hold a valid SAQCC Fire 1475 registration card. Technicians working on detection systems must hold a SAQCC Fire Detection registration. (Note: Unregistered persons servicing fire equipment are committing a criminal offense in SA).
3. **SABS 1475 Approved Facility:** The bidding company must provide proof that their workshop is an SABS 1475 approved permit holder for the servicing and pressure testing of fire equipment.
4. **ASIB Registration:** If sprinkler works are required, the contractor must be registered with the Automatic Sprinkler Inspection Bureau (ASIB) or utilize an ASIB-approved specialist.
5. **Department of Labour:** Registered for Workman's Compensation with a valid Letter of Good Standing (COIDA).
6. **Public Liability Insurance:** Valid proof of comprehensive public liability insurance due to the high-risk nature of fire safety failure.

SECTION D: DETAILED TECHNICAL SCOPE OF WORKS

1. Portable Fire Extinguishers & Fire Blankets

Conduct a comprehensive SANS 1475 annual service on all DCP (Dry Chemical Powder), CO2, and Foam extinguishers on site. Check weight, pressure gauges, safety pins, tamper seals, discharge hoses, and operating mechanisms.

2. 5-Year Pressure Testing: Identify all extinguishers that have exceeded 5 years since their last hydrostatic pressure test.

Replacement Clause: If the cost to service, repair, or pressure-test an extinguisher exceeds 60% of the replacement value of a new unit, the contractor must quote for a new unit instead. Inspect all fire blankets (SANS 1869). Replace if contaminated, damaged, or deployed. Update and affix valid SABS 1475 service labels and tamper seals to all passed units.

3. Fire Hose Reels & Hydrants

Fully unroll hose reels to inspect for perishing, leaks, or blockages. Conduct a dynamic flow and pressure test to ensure adequate water supply as per SANS 543. Service the stopcock/water valve, replace perished O-rings, and check the nozzle for correct operation. Check that the hose reel frame is securely mounted to the wall. Service all fire hydrants, check coupling threads, and grease operating spindles.

4. Fire Detection & Alarm Systems (SANS 10139)

Coordinate with the Chief Works Manager to isolate the system and prevent false evacuations or automated Fire Department callouts. Test the main Fire Control Panel for faults, earth leaks, and zone isolations.

5. Battery Replacement: Load-test the SLA (Sealed Lead Acid) backup batteries in the control panel.

Replace automatically if they are older than 12 months or fail the load test. Physically test a sample of smoke and heat detectors across all zones using approved artificial test aerosol gas (DO NOT use open flames or cigarettes). Test all manual call points (break-glass units) and verify that all electronic sounders/sirens activate at the correct decibel level.

6. Automatic Sprinkler Systems (If applicable)

Inspect sprinkler control valve stations. Exercise and grease main isolation valves. Test the water motor alarm gong and electronic flow switches. Verify the operation of the sprinkler jockey pump and check system resting pressure against ASIB baselines.

7. Reporting & Certification (Handover)

Compile a comprehensive Fire Equipment Register detailing the location, type, size, and status (Pass/Fail/Replaced) of every item on site.

Provide a legally valid Certificate of Complete Fire Protection in accordance with SANS 1475 and SANS 10139, to be submitted with the invoice to the NDPW.

SECTION E: LEGAL, COMMERCIAL & CONTRACTUAL CONDITIONS (PA-10 FM COMPLIANCE)

This project is strictly governed by the DPW Facilities Management Conditions of Contract (PA-10). To protect the interests of the Department of Public Works and Infrastructure (DPWI) and the Chief Works Manager (Chief Works Manager), the following legally binding clauses apply:

1. Indemnification & Liability (Clause 21).

The Service Provider shall be entirely liable for, and hereby expressly indemnifies the Employer (DPWI) and its representatives (Chief Works Manager) against any liability, claim, demand, loss, cost, damage, action, or legal proceedings arising from:

- **Authority on Site:** The Service Provider must strictly comply with Chief Works Manager's written and verbal instructions.
- **Staff Competency & Removal:** The Service Provider must deploy experienced and capable personnel. If Chief Works Manager deems any staff member incompetent, negligent, or undesirable on reasonable grounds, he reserves the right to demand their immediate removal from the site. The Service Provider must affect this removal within one (1) day (Clause 5.5).
- **Site Cleanliness & Nuisance:** The site must be always kept clean and in a safe condition. Work must be conducted in a manner that does not cause unnecessary noise or hinder the normal activities of the Magistrate Court.
- **Security Clearance & Confidentiality:** All personnel must be easily identifiable. The Service Provider is bound by strict confidentiality regarding any information obtained at the facility and is liable for damages resulting from unauthorized disclosure.

3. Payment Terms & Security Retention (Clauses 7, 26 & 27)

- **Retention Security:** A security retention of **2.5% of the Contract Sum (excl. VAT)** may be withheld by the Employer. This retention will then be released in accordance with Clause 27 (typically 95% within 30 days of the Service Period expiry, and the remainder upon issue of the Certificate of Completion).
- **Payment Timeframe:** Upon receipt of the approved statement, the Service Provider shall issue a Tax Invoice. The Employer shall effect payment within **thirty (30) days** of receipt of the correct Tax Invoice.
- **Penalties & Deductions:** The Employer reserves the right to deduct funds from the payment certificate or invoice for penalties, damages, overpayments, or retention.

4. Time Frames, Non-Performance & Termination (Clauses 25, 33 & 34)

- **Duration:** The project must be completed within **one (1) month**.
- **Penalties:** Failure to complete the works within the stipulated timeframe, or failure to perform the services to the **required standard**, will result in financial performance deductions calculated against the invoice.
- **Breach of Contract:** Should the Service Provider breach any condition, Chief Works Manager will issue a 10-day notice to rectify the breach. If unrectified, the Employer reserves the right to terminate the contract immediately, suspend payments, and appoint another service provider, holding the defaulting Service Provider liable for any additional costs incurred.
- **Defective Work:** Any remedial work required due to omissions, inferior materials, or poor workmanship shall be executed at the Service Provider's own cost without delay.
