14	<input type="checkbox"/>	
15	<input type="checkbox"/>	
16	<input type="checkbox"/>	
17	<input type="checkbox"/>	
18	<input type="checkbox"/>	

4.3. Indicate administrative requirements applicable for specific goals, Tenderers will not be required to submit the below documents if not provided in the original tender proposals, Failure to comply with the criteria stated hereunder shall result in the tenderer not allocated points for specific goals

1	<input checked="" type="checkbox"/>	Submission of (PA-16): Preference Points Claim Form in terms of the Preferential Procurement Regulations 2022
2	<input checked="" type="checkbox"/>	A trust, consortium or joint venture (including unincorporated consortia and joint ventures) must submit a consolidated B-BBEE Certificate issued by a SANAS accredited service provider

5. THE FOLLOWING EVALUATION METHOD FOR RESPONSIVE BIDS WILL BE APPLICABLE:

<input type="checkbox"/> Method 1 (Financial offer)	<input checked="" type="checkbox"/> Method 2 (Financial and Preference offer)
---	---

5.1. This bid will be evaluated according to the 80/20 Preference points scoring system:

6. ELIGIBILITY IN RESPECT OF RISK TO THE EMPLOYER:

Standard risk management assessment criteria in respect of tenders received for routine projects in the engineering and construction works environments:

Tender offers will be evaluated by an Evaluation Committee based on the technical and commercial risk criteria listed hereunder. Each criterion carries the same weight / importance and will be evaluated individually based on reports presented to the Bid Evaluation Committee by the Professional Team appointed on the project. A tender offer will be declared non-responsive and removed from any further evaluation if any one criterion is found to present an unacceptable risk to the Employer.

In order for the evaluation reports to be prepared by the Professional Team, the Tenderer is obliged to provide comprehensive information on form DPW-09 (EC). Failure to complete the said form will cause the tender to be declared non-responsive and removed from any further consideration. The Employer reserves the right to request additional information over and above that which is provided by the Tenderer on said form. The information must be provided by the Tenderer within the stipulated time as determined by the Bid Evaluation Committee, failing which the tender offer will *mutatis mutandis* be declared non-responsive.

6.1 Technical risks:

Criterion 1: Experience on comparable projects during the past specify between 5 and 10 years.

The tendering Service Provider's experience on comparable projects during the past specify between 5 and 10 years. The number of current and previous comparable projects performed by the Tenderer as per the evaluation report prepared by the Consultant Team, based on its research and inspection of a representative sample of the Tenderer's current and previous work as reflected on form DPW-09 (EC), as well as, if necessary, of any additional work executed by the Tenderer, not reflected on form DPW-09 (EC). Failing to provide contactable references will result in the tender offer will be *mutatis mutandis* declared non-responsive.

Aspects to be regarded as "comparable" includes (but may be extended according to circumstances): size of projects (measured against monetary value or other project quantifying parameters), nature of projects (building, engineering, high/low rise, etc.), locality/area of execution (site-specific influences, knowledge of local conditions, etc.), complexity of project, projects for similar client department irrespective of end purpose of buildings/facilities created or in progress of being created and time scales of projects (normal, fast track, etc.) and stage of its/their development.

Criterion 2: Contractual commitment and quality of performance on comparable projects during the past specify between 5 and 10 years.

Adherence to contractual commitments and quality of performance of comparable current and previous projects performed by the Tenderer during the past specify between 5 and 10 years as per the evaluation report prepared by the Consultant Team, based on its research and inspection of a representative sample of the Tenderer's current and previous work as reflected on form DPW-09 (EC), as well as, if necessary, of any additional work executed by the Tenderer.

Aspects to be considered include, but are not limited to the following:

1. The level of progress on current projects in relation to the project programme or, if such is not available/applicable, to the contractual construction period in general;
2. The degree to which previous projects have been completed within the contractual completion periods and/or extensions thereto, and the extend of penalties imposed;
3. Project performance: time management & programming of works, timeous ordering of materials and appointment of subcontractors;

Any reference to words "Bid" or Bidder" herein and/or in any other documentation shall be construed to have the same meaning as the words "Tender" or "Tenderer".

4. Financial management: payment to suppliers and cash flow problems;
5. Quality of workmanship: extent of reworks and timeous attention to remedial works;
6. Personnel resources: suitably qualified and experienced, turnover in site staff and labour force, specifically site manager and foreman;
7. Personnel management: extent of labour disputes and ability to resolving labour disputes amicably;
8. Sub-contractors: extent of turnover in subcontractors, general liaison and payment problems experienced;
9. Contract administration: contractual aspects such as complying to laws and regulations, insurances, security, submission of required documentation timeously, reaction to written contract instructions, appointments of subcontractors, etc. as can generally be expected in standard/normal conditions of contract.
10. Health & Safety: adherence to regulations and compliance, and number of transgressions & serious incidents.
11. Plant & equipment: sufficient resources on site and in time.
12. Delays: extent of causing delays, submission of claims timeously, and abuse of or exaggerated delay claims.
13. Final account: extent to which the contractor assisted in finalising the final account.

Criterion 3: Suitably qualified and appropriately experienced human resources

Allocation of suitably qualified and appropriately experienced human resources, both in respect of principals and/or other staff (contract manager, site agent, site foreman including other professional, technical and/or administrative) of the tendering Service Provider to the project, as proof that the tendering Service Provider will be able to react/respond appropriately to the Services required herein. The Company Organogram with CV's and certified ID's of all principals and employed workforce as well as proof of Professional Registration will be verified. Current and future workload of the tenderer in relation to capacity and capability will also be considered. The tenderer should demonstrate that he or she possesses the necessary professional and technical qualifications and -competence in relation to the scope of work and work to be undertaken.

Criterion 4: Attendance of compulsory bid clarification meeting, if applicable

If applicable, submission of confirmation of DPW-16.1 (PSB) attendance of compulsory bid clarification meeting or proof of attending the compulsory virtual meeting by a suitably qualified and experienced representative of the tenderer in terms of PA-04 (EC): Notice and Invitation to Tender.

6.2 Commercial risks:

The financial viability assessment evaluates the risk over the life of the construction period, as to whether the tenderer will be able to deliver the goods and services which are specified in the contract and / or be able to fulfil guarantees or warranties provided for in the contract in order to complete the project successfully for the amount tendered.

Aspects to be considered include but are not limited to, the respective rates tendered, bank rating, financial capability and capacity whether the tenderer has or has access to sufficient financial resources to deliver the goods or services described in the tender documentation (including fulfilling any guarantees or warranty claims), whether the tenderer is not subject to any current or impending legal action (either formal proceedings or notification of legal action) which could impact on the financial standing of the tenderer or the delivery of the goods or services, financial report from auditors as proof of current liquidity, and company or any parent company or investor guarantee/s and financial statements.

- Contractor must comply with OHS Act no. 85 of 1993 with Regulation.
- Contractor must be in good standing with Workman's Compensation. (COIDA)
- Contractor must provide proof of relevant required registration and all compliant certification of conformances.
- Submission of Safety Plan before commencement on Site
- The Safety Plan should be approved by the Client (NDPWI) before commencement of work onsite.
- **Submission of PA32 Invitation to bid – (Submission of SBD 3.1 FORM OF OFFER)**
- Submission of BBBEE sworn affidavit of certificate attested the Commissioner of oath or a certified copy of BBBEE certificate issued by CIPC or SANAS approved BBBEE certified valid at the time of closing (subject for verification).
- **Submission of a Valid certificate of a Carpenter**
- **Only Awarded Service Provider will be required to submit Security Clearance Documents.**

Awarded Service Provider to Submit Public Liability Cover and Safety Plan before Commencement on Site.

PART A PA 32: INVITATION TO BID

YOU ARE HEREBY INVITED TO BID FOR REQUIREMENTS OF THE DEPARTMENT OF PUBLIC WORKS AND INFRASTRUCTURE					
BID NUMBER:	ID 3237033	ADVERT DATE: 10/04/ 2026	CLOSING DATE: 28/04/2026	CLOSING TIME:	11:00
Site Briefing	Not Applicable				
DESCRIPTION	Justice: Umzinto Magistrate Court: Cutting Down and Trimming of x7 Huge trees at the back next to the cells block.				
BID RESPONSE DOCUMENTS MAY BE DEPOSITED IN THE BID BOX SITUATED AT (STREET ADDRESS)					
Quotation Box situated by the Security Desk (Entrance): 157 Monty Naicker Department of Public Works and Infrastructure: Durban.					
BIDDING PROCEDURE ENQUIRIES MAY BE DIRECTED TO			TECHNICAL ENQUIRIES MAY BE DIRECTED TO:		
CONTACT PERSON			CONTACT PERSON

A) CONDITIONS OF TENDER

- Contractor must introduce themselves and what they will be doing to the relevant official at the institution before any assumption of work: [**Contact official at institution: Carmen Tupper - Tel: 039 – 978 9448**]
- Due to the Urgent nature of the works, the successful tenderer undertakes to commence the work immediately from the receipt of an official complaint number and proceed with due diligence to its final completion in all respects
- At the completion of the works the Contractor is to submit the attached completion certificate that must be faxed immediately to the Department of Public Works at fax No.031 337 5868 for final inspection of the works
- The contractor must establish and maintain telephone, fax and cellular connection
- The Contractor must comply with all Occupational Health and Safety regulations and instructions
- The contract period is **ONE (1) MONTH** from the date the official order is an official order
- Time shall be considered as the essence of this contract .If the contractor fails to complete the works within the above specified contract period a penalty will be proportioned according to the estimated value of the contract and will be deducted from the sum due.

B) NOTES TO TENDERES

- Contractor is to supply project plan and work schedule at the commencement of works
- Contractor to note that all quantities are remeasurable
- All supporting supplier's material and service invoices must be provided together with all payment invoice claims
- Job cards must be detailed, stamped and signed by the Client Department and accompany all invoices claimed
- Contractor must provide proof of relevant required registration and all compliant certification
- The Contractor must notify the relevant Works Manager immediately on completion of Works in all respects for inspection of the works
- Contractor to dispose at an approved Municipal and recognized dumpsite.
- The dump site to supply a disposal certificate or proof of payment from the Municipality.

C) SCOPE OF WORKS

- **CUTTING DOWN AND TRIMMING OF 7x HUGE TREES.**

D) PRICING SCHEDULE

- **Note All rates and totals must be filled in and completed in all respects**
- **All prices quoted must be inclusive of Labour, Materials, Profit and Transport**
- **Any change due will be confirmed by the Project Manager.**

01.	Occupational Health and Safety Requirements. Provide and Comply with Occupational Health and Safety Regulations. Bidder to provide Safety Plan before commencement of service and to be scrutinized by Departments Safety Officer. Bidder to supply a Project Plan and Work Schedule prior to commencement of any works.	1 File	R 1 500.00	R 1 500.00
02.	Cut down and trim branches and the entire stump on trees with circumference of trunk not exceeding 200mm, including all necessary filling and ramming (±8.5m high)	7 off		
03.	Cut down and trim the tree stumps with circumference of trunk exceeding 200mm into small manageable pieces, including all necessary filling and ramming (±8.5m high)	7 off		
04.	After cutting down and trim the tree stump of a tree down to the ground, Poison the tree by pouring Diesel on the stump of the tree to avoid further growth of the tree.	7 off		
05.	Contractor to clean the site, remove rubble from site to an approved Municipality Dump Site and to comply with OHSA	±5 Loads		

TOOLS AND EQUIPMENT USED TO CUT DOWN AND TRIM TREES

1. **Gather the necessary tools and equipment.** You'll need a handheld pruner and a larger lopping shears to trim branches that are small to medium-sized. For mature trees, you'll need a pole pruner to safely reach high branches and a handsaw or chainsaw to remove thick limbs. Wear eyeglasses in accordance with ANSI standards or risk your vision! You might also need a ladder.

2. Decide which branches to remove.

- Identify dead or diseased branches.
- Look for crisscrossing branches that are making contact with each other or about to. When branches rub against each other, the resulting wound makes the tree more susceptible to disease.
- Examine the tree for branches extending inward, rather than outward. These should be removed to avoid crowding, so sunlight can reach the leaves at the tree's interior.
- Stand back and look at the shape of the tree. Identify any branches that make the tree look misshapen.
- Look for branches that need to be removed to reduce the size of the tree. Limbs that are too close to the house should be removed. They can cause damage to the house when blowing in the wind as well as allow insects and animals to reach your house.
- Branches that are below head height on more mature trees should be removed. This is called "raising the canopy."
- Check for new growth along the trunk and main branches, called "water sprouts," and from the roots, called "suckers." This is known as epicormic growth and these branches are more susceptible to disease and breakage.

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

- 3. Trim starting at the bottom of the tree and move upward and from the inside and move outward.** This will help you to keep a natural shape to the tree.

4. **Cut right above where the branch or new growth attaches to the trunk or main branch. This area is called the branch collar or abscission zone. Do not cut the branch collar because this is where the tree will heal and close up the wound.**

5. Use a handheld pruner to trim new growth and small branches you can reach from the ground or safely from a ladder.

6.

When removing large branches first make a cut on the underside of the branch (a foot away from the trunk) Cut 1/3 of the way through from the bottom of the branch to the top of the branch without pinching the saw. Second make a cut on the top of branch outwards from the first cut. Make the second cut all the way through. The first cut prevents the branch from tearing the trunk bark. Lastly remove the stub above the branch collar, which is where it widens before reaching the trunk. This will allow a callous to form over the wound. If you make the cut flush with the trunk, it won't be able to heal properly and will be more susceptible to disease. (Some tree like pines need to be cut back all the way to the trunk)

TOOLS AND MATERIALS

OBVIOUS/TRADITIONAL TOOLS

1. Ladder (I used a telescoping ladder)
2. Reciprocating saw (to cut branches; a chain saw was a non-starter: too heavy)
3. Spare batteries for reciprocating saw (my saw is battery operated)
3. Extension cord (if you have a saw that requires mains electricity)
4. Pruning blade for reciprocating saw
5. Hand bow saw (for cutting branches when reciprocating saw won't work)
6. Goggles (protect eyeballs from flying debris)

NOT-SO-OBVIOUS MATERIALS AND TOOLS

1. 2-3 6-8in scrap 2x4's (to use for steps)
2. 1-2 6-8in scrap 2x4's (to use as foot hold)
3. 1-2 6-8in scrap 2x4's (to use as arm rest)
4. 4-6 L-brackets (to support foot holds and arm rests)
5. 10-20 4in nails (to secure 2x4's; to hold pulley; to use as a hook for tool bag and hook for electrical cord if your saw is corded)
6. 10-20 4in screws (to secure 2x4's)
7. 4-8 8-10in spike nails (to help secure ladder)
8. Drill (to drill pilot holes for 2x4's)
9. 1/8 in drill bit (to drill pilot holes for 2x4's)
10. Screwdriver drill bit (to secure screws to 2x4's)
11. Chisel
12. Hammer
13. Tool Belt/w hammer holder and pockets

14. 1 5-6 ft rope (to help hold ladder to tree) (optional)
15. 1 20-50 ft rope (to pull tools up the tree)
16. 1 100-200 ft rope (to help guide branches as they are cut)
17. Light-weight 5-6 ft pole (to use to help guide rope in tree)
18. Come-along winch (to tighten guide rope)

19. Bucket or canvas tote/tool bag (to put tools in)
20. Carabiner (to snap onto the tool bag and pull rope easily)
- Pulley (use to haul tool bag up into the tree)
- Lots of Band-Aid's.

What is a Cherry Picker?

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

What is a Cherry Picker?

A cherry picker, also known as a boom lift, man lift, hydaladder, or basket crane, is a type of elevated, hydraulic crane platform that is used to raise and lower personnel to and from elevated working surfaces. Cherry pickers are often used to give workers access to overhead cables, but they get their name from their history of picking high up fruit in orchards, like cherries.

Cherry pickers are not to be confused with order pickers, which are actually forklifts and designed for selecting items from heights inside a warehouse. Cherry pickers, classified as aerial lifts under the OSHA standard 1910.67 and cherry picker regulations, come in several different types, including truck-boom mounted picker, telescopic boom, articulated boom, and trailer mounted lift.

- – **Truck mounted boom picker.** Truck-mounted boom lifts are exactly as they sound. The body sits on a 4-wheel chassis of a truck that's fitted with a boom arm on the back. This type of cherry picker lift is one of the most transportable and makes it easy to access a variety of work locations. Forklifts are similar to the truck-mounted boom picker, since they also rest on a 4-wheel chassis and use forks to lift and lower loads and access high up materials. Cherry picker forklift training teaches how to use both boom pickers and forklifts.
- – **Telescopic boom.** Telescopic boom lifts are known for their great reach power. They are used on a variety of situations for accessing items at incredible heights that other machines can't, like tall trees, power lines, and even stalled roller coasters.
- – **Articulated boom.** Articulated booms are made with a jointed "arm" which means that they can reach up and over structures to access hard-to-reach areas. They are one of the most flexible and versatile types of cherry pickers.
- – **Trailer-mounted lift.** The trailer-mounted cherry picker is made up of a boom arm that rests on top of wheels for moving and small arms for balance. It is very portable and can be brought in to work areas where typical machines can't.

- **Where Are Cherry Pickers Used?**

- Now that you know exactly what a cherry picker is, it's important to know what kinds of job they are used for. Cherry pickers are used on a variety of worksites, but for the primary purpose of reaching otherwise inaccessible areas. Construction workers use cherry pickers to access buildings to paint, install or maintain windows, work on electrical systems, install signage, install and maintain lighting, work on trees, and much more. They have made many types of projects possible and are incredibly useful machines. However, if you don't know how to use a cherry picker properly, there are some serious risk involved. Injuries and fatalities caused by cherry picker lift accidents are not uncommon on worksites across the country, and it is essential for workers to receive adequate cherry picker certification training and to follow all cherry picker regulations to protect their life.

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

- Additionally, you may want to know where forklifts are used. Forklifts are used on many construction sites, and in warehouses. They are used to lift, raise, stack, and lower loads onto shelving racks, as well as access materials high up in a warehouse. Cherry picker forklift training teaches operators how to operate cherry pickers outdoors on construction sites and forklifts indoors and out.
- **Why is Cherry Picker Training Important?**
- In 2011 alone, cherry pickers were responsible for the deaths of 39 workers. 66 more fatalities were caused by truck-mounted lifts, and cherry pickers were listed as the secondary cause of 34 other deaths.
- Other types of boom lifts can additional deaths. Boom lifts are responsible for seven out of ten deaths, while scissor lifts account for more than 25 percent of aerial lift fatalities. These figures do not include fatalities from electrocution while using a lift vehicle

The most **common causes of cherry picker deaths and injuries** include:

- – Falling from lift
- – Electrocution
- – Lift tips over
- These unfortunate accidents start with operators not being aware of what is a cherry picker and how to use a cherry picker properly. Have you guessed what is the key to preventing these accidents? Yep, it's cherry picker training.
- Cherry picker training teaches workers everything they need to know to operate all types of cherry pickers, how to recognize and avoid hazards, and how to be compliant with all cherry picker regulations. It prevents injuries and fatalities, and it keeps fines and legalities out of the workplace.
- Forklifts also cause deaths and injuries every year on worksites. They cause about 85 fatalities every year, most of which can be boiled down to operator error. Cherry picker forklift training teaches workers how to operate not only cherry pickers, but also forklifts in warehouses and outside to be as safe as possible on all types of equipment.

Cherry Picker Regulations to Prevent Accidents

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

Ensure all workers receive proper **cherry picker training** to prevent accidents and avoid costly fines. For operators, the first step is knowing what a cherry picker is, its unique characteristics, and how to operate a cherry picker lift properly. It's also essential to make sure training is compliant with OSHA requirements for using an aerial lift safely, which include:

- – **Do not exceed load or weight limits**
- – **Do not sit or climb on guardrails**
- – **Don't modify an aerial lift**, without consulting the manufacturer in writing
- – **Maintain aerial lifts properly** (this applies to rented lifts in particular)
- – **Perform daily inspections** of safety devices and lift controls
- – **Always wear a seat belt and fall protection equipment**, including a full body harness and lanyard, if working on an elevated platform
- – **Do not drive an aerial lift with the lift extended**
- – **Set the brakes and outriggers**
- – **Use wheel chocks on sloped ground**

To learn more about forklift training, visit our [forklift training](#) page.

How to Use a Cherry Picker Safely

In a document published on the Electronic Library of Construction Occupational Safety and Health (ELCOSH), the [Center for Construction Research and Training](#) made the following recommendations for how to use a cherry picker safely:

- – **Avoid power lines.** Keep non-electrical workers at least 10 feet away from live overhead power lines. This [video](#) shows what can happen when a crane is not even touching a power line.
- – **Rotate and move slowly.** Sudden jerks of the bucket can cause direct contact with power lines and should be avoided. In fact, sudden jerks of the bucket or platform are not recommended under any circumstances, as this [video](#) shows.
- – **Wear protective clothing.** Electrical workers who are working on or near live power lines should use insulated tools and wear rubber gloves, rubber sleeves, voltage-rated shoes; Class E (formerly Class B) insulated hard hats, and whatever other personal safety equipment is needed. If boom buckets cannot be insulated, then the aerial lift should be grounded.
- – **Safely remove electrocution hazards.** Effort should be made to either insulate or de-energize live power lines.
- – **Remain compliant with safety protocols.** Boom buckets should be regularly tested to ensure the insulation is up to regulation specifications.
- – **Make sure you are on stable ground.** All cherry pickers must be placed on even, stable terrain to prevent tip-overs. Use outriggers when needed, and use brakes and wheel chocks when the lift is on an incline.
- – **Use fall protection.** When operators are working on cherry pickers, they must use full body harnesses and lanyards to prevent them from falling and being injured or killed.
- – **Understand what a cherry picker is and receive specialty cherry picker training.**

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

The most important part of using a cherry picker safely, is to complete cherry picker training. With CertifyMeOnline.net, it's as easy as these simple steps:

1. Create an account on our website
2. Log into your account and choose your program
3. Work through the online modules
4. Pass all quizzes and tests
5. Pass the in-person evaluation at your work
6. Print your operator certification!

These easy steps can be completed online, apart from the in-person evaluation, and from any device with an internet connection. We help you save tons of time and money, all from your own home or workplace. Our cherry picker forklift training programs help you get your operator certification in as little as one day

BACK HOE OR T.L.B USED TO DEROOT A TREE.

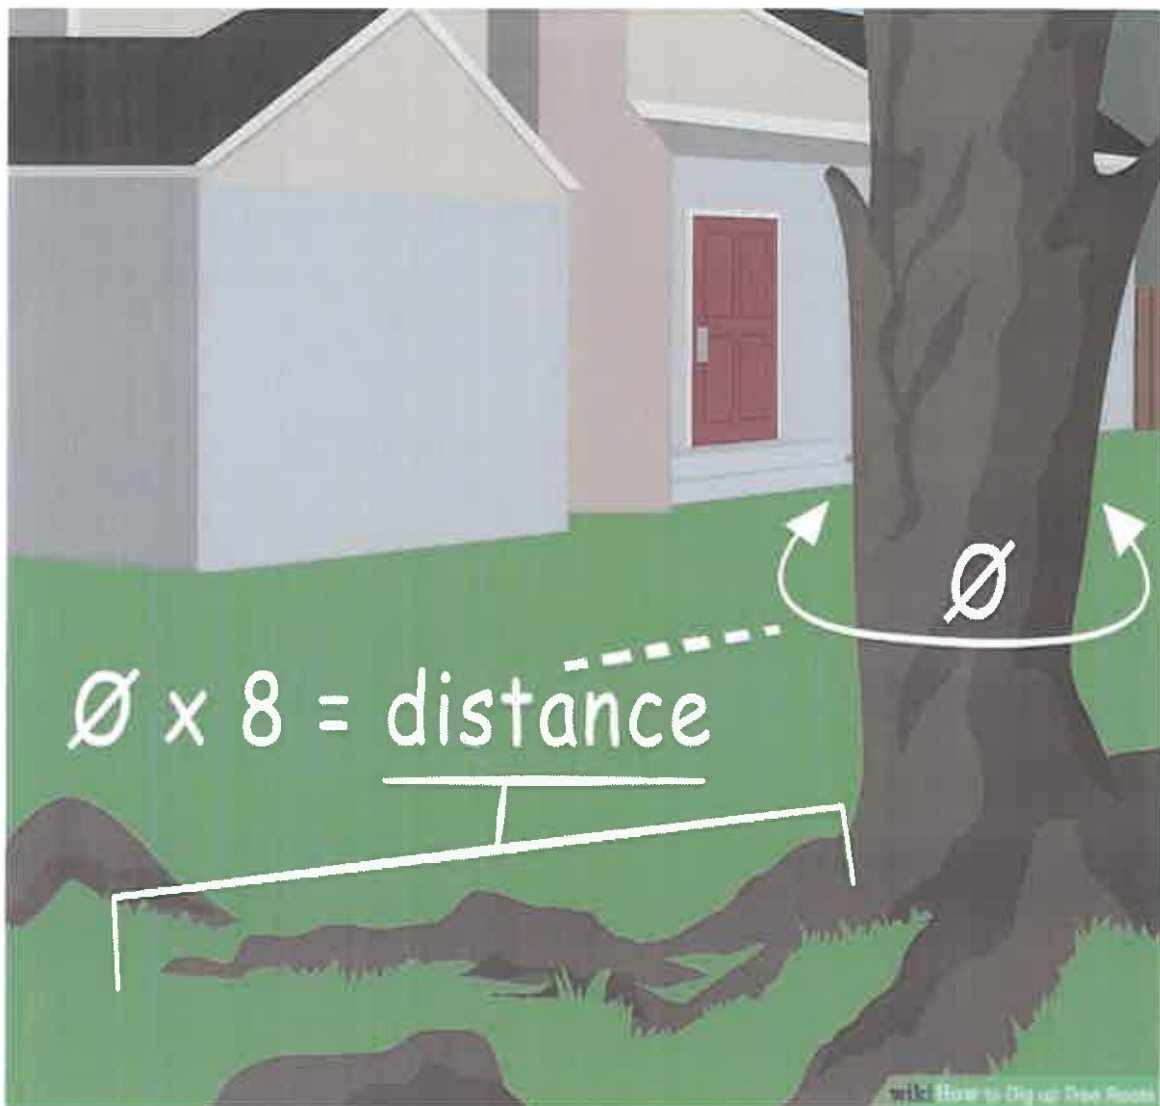

REMOVAL OF TREES

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

Tree roots can sometimes be unsightly in our yards, causing us to want to dig up them up. Other times, they can become dangerous, such as when a tree is growing too close to a foundation of a house or is damaging underground pipes. However, digging up tree roots isn't as simple as using a shovel to dig a hole. Digging up too many roots or the wrong roots can actually kill the tree, which may cause you to remove the tree entirely. Luckily, if you follow the correct procedures, take the right precautions, and use the right techniques, you can safely dig up a tree's roots without killing the tree.

1. **Trace the root that you want to cut back to the tree.** Cutting the root too close to the tree can cause structural instability and can cause the tree to fall

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

over.^[1] Measure the tree trunk's diameter with a tape measure and multiply it by 8. This number is the closest distance from the tree that you can cut the root.^[2]

- For example if your tree has a diameter of 2 feet (60.96 cm) you shouldn't cut the root closer than 16 feet (4.8 meters) from the tree itself

2. **Avoid choosing the largest roots.** Larger roots are called structural roots and are important in keeping the tree in place. These roots begin at the base of the tree and flare out. Do not cut larger roots 6 inches (152.4mm) to one foot

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

(304.8mm) from the trunk for every inch in diameter that the tree is. You can measure the diameter of the tree by wrapping a tape measure around the tree at chest height.^[3]

- For instance, you shouldn't cut a tree that's 16-inches (406.4mm) in diameter 8 feet (2.4384 meters) to 16 feet (4.8768 meters) from the trunk

3. **Don't remove more than 20% of your tree's roots.** When removing large portions of the tree's roots, make sure to wait up to three years before cutting more roots. Removing over 20% of your tree's roots will seriously harm it and

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

could kill it.^[4] If you plan on cutting a large portion of the roots from a tree, consider completely **removing the tree** instead.

4. **Consult an arborist if you're unsure of yourself.** If you don't feel confident cutting a tree's roots, then you should seek professional guidance before doing so. Arborists from a local cooperative extension will sometimes provide tree root pruning services for a fee. If you'd rather do it yourself, see if you can have them come in for a smaller consultation fee.^[5]

- Arborists will have the equipment and knowledge to safely remove the tree roots for you

DIGGING UP THE ROOTS

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

1. Dig a hole in the area where you want to remove the roots. Measure a safe distance away from the tree before digging your hole. If the roots that you want to remove are underground, you'll need to reveal them with a shovel. Dig a hole around the tree where you want to remove the roots using a trenching or a digging shovel. Do your best not to disrupt or break the tree's roots while you do this.^[6]

Provisional Bills of Quantities: Building Works

Ref: I.D/3237033 - (19/2/3/2/1/1071)

Chief Works Manager: Peggy N. Ngidi

- 2. Draw a line where you want to remove the root.** Once you've located the root you want to remove, use spray paint, colored chalk, or a thick marker to mark the spot where you'll cut the tree root. Marking the root will help guide you and prevent you from cutting the root too close to the tree. Simply mark the root with a line that will help guide where to cut with the saw.

- 3. Dig around the root with a spade.** Dig around the root with a smaller spade, making sure to dig under the root as well. Leave space around the root, so it's easier to cut it. Completely reveal the area where you'll cut with your shovel and give yourself enough space to make cuts.

1. **Cut the root where you marked.** For smaller roots, like those that are less than an inch (2.54 cm) in diameter, you can use regular gardening shears or gardening scissors to cut the root.^[7] If you are cutting a larger root, you'll need to use a special tool -- a root saw or a mechanical reciprocating saw. You can purchase these saws at home and gardening stores or online.^[8] Some store locations will allow you to rent reciprocating saws for a daily rate
2. **Grab the cut end and pull the root towards you.** Grab the loose end of the root and pull it towards you until it tears free from the ground. If the root is embedded deeply into the ground, you may need to dig up more soil around the root. Once you're done, discard the root, and continue doing this to the other roots that you're cutting.

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

3. **Install a barrier.** To keep the root from growing back, put in a barrier under the soil before you fill in the hole. Use a heavy duty plastic tree root barrier, and install it 30-inches (76 centimeters) below the surface of the soil.^[9] You can purchase a plastic tree root barrier at most lawn and garden centers.

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

- 4. Fill in the hole.** Fill the hole you've made with mulch or fertilizer purchased from the store. As an alternative to mulch, you can also fill your trench with grass seeds or sod if you want grass in the area.^[10] Take your cut tree's roots and dispose of them.

Tree Felling Risk Assessment

The following key lessons may help save your life.

Initial site survey;

Wherever possible, assess jobs in advance. This allows for correct selection of equipment, allocation of staff and prior knowledge of hazards. It also allows an experienced site surveyor to provide guidance and work methodology to the people carrying out the work.

Risk assessment/emergency planning:

The assessment should take account of the hazards that are relevant and specific to the given site, task and tree. It is not just an exercise on paper; if you cannot control risks to acceptable levels, work on that task must not proceed until suitable arrangements are in place. Emergency contingency plans (first aid, emergency contact numbers, Accident and Emergency number, site location etc) must be made in advance.

Work planning:

All information, as well as the actual undertaking of the job, must be planned, agreed and understood by all the team.

Felling cuts:

Effective control of the fell is maintained by an appropriate combination of the directional or sink cut, hinge and main felling or back cut. Felling cuts must be appropriate to the tree size and form and consistently accurate.

Felling aids (breaker bars, wedges etc):

These must be appropriate to the tree size and form. The need for felling aids must be identified in advance; they must be appropriate and readily available to the person undertaking the fell.

Control lines, pull ropes, anchor ropes, winches etc:

If these types of system are to be used there should be clear understanding of their intended purpose and suitability for the task, eg is it:

- An assisted fell?
- An anchor or back up?
- A felling aid?
- A winching operation? or
- A combination of tasks?

Provisional Bills of Quantities: Building Works
Ref: I.D/3237033 - (19/2/3/2/1/1071)
Chief Works Manager: Peggy N. Ngidi

Avoid:

'free hand' pulling or non-anchored applications. There is a high risk that if the person pulling the rope sways or rocks the tree during the felling operation, the main felling cut at the rear of the tree will open and close with the risk that the chainsaw operator could compromise the integrity of the hinge.

Do not:

over tension lines, as this may place considerable tension on the rear of the tree which may cause the hinge to sever prematurely, the tree to split, and injury to the chainsaw operator.

Avoid:

making the main felling or back cut while your workmate is simultaneously applying tension to the line. As well as the above risks, the chainsaw operator cannot safely place the back cut and monitor the action of his colleague operating the line. In the majority of cases the tree feller should be able to form the back cut, leave a hinge of appropriate size, step into a safe area, and then issue an agreed signal for the person on the lines to start operation.

Escape routes:

Plan escape routes in advance – they must be clear of obstructions. If control is lost over the fell, use the escape route and try not to turn your back on the falling tree. Remember, accidents often happen because unforeseen or remote risks actually materialise. Consider the possibility that the tree may fall towards your intended escape routes. Have you got enough back up to ensure that the tree will fall in the intended direction? Is there enough space to enable you to take evasive action if the unforeseen does occur?

Staff competency and experience:

Staff should have the necessary training, experience and competency certificate relevant to the task they are undertaking. Remember that people holding only CS 30/31 with little additional experience can quickly find themselves in situations outside their experience and skill base. This is particularly true when faced with larger and awkward fells and when faced with the unique hazards associated with arboricultural operations in gardens and the built

PA-11: BIDDER'S DISCLOSURE

1. PURPOSE OF THE FORM

Any person (natural or juristic) may make an offer or offers in terms of this invitation to bid. In line with the principles of transparency, accountability, impartiality, and ethics as enshrined in the Constitution of the Republic of South Africa and further expressed in various pieces of legislation, it is required for the bidder to make this declaration in respect of the details required hereunder.

Where a person/s are listed in the Register for Tender Defaulters and / or the List of Restricted Suppliers, that person will automatically be disqualified from the bid process.

2. Bidder's declaration

2.1 Is the bidder, or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest (1) in the enterprise, employed by the state?

YES / NO

2.1.1 If so, furnish particulars of the names, individual identity numbers, and, if applicable, state employee numbers of sole proprietor/ directors / trustees / shareholders / members/ partners or any person having a controlling interest in the enterprise, in table below.

Full Name	Identity Number	Name of State institution

(1) the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution? YES / NO

2.2.1 If so, furnish particulars:
.....
.....

2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract? YES / NO

2.3.1 If so, furnish particulars:
.....
.....

3 DECLARATION

I, the undersigned, (name).....
in submitting the accompanying bid, do hereby make the following statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium² will not be construed as collusive bidding.
- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.5 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.6 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference for this bid.

² Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

3.7

I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.

I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME IN TERMS OF PARAGRAPH 6 OF PFMA SCM INSTRUCTION 03 OF 2021/22 ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE FALSE.

Held at _____ *(place)*

on _____ *(date)*

RESOLVED that:

RESOLVED that:

- A. The above-mentioned Enterprises submit a Bid in Consortium/Joint Venture to the Department of Public Works in respect of the following project:

(Project description as per Bid /Tender Document)

Bid / Tender Number: _____ *(Bid / Tender Number as per Bid /Tender Document)*

B. *Mr/Mrs/Ms: _____
in *his/her Capacity as: _____ (Position in the Enterprise)
and who will sign as follows: _____

be, and is hereby, authorised to sign the Bid, and any and all other documents and/or correspondence in connection with and relating to the Bid, as well as to sign any Contract, and any and all documentation, resulting from the award of the Bid to the Enterprises in Consortium/Joint Venture mentioned above.

C. The Enterprises constituting the Consortium/Joint Venture, notwithstanding its composition, shall conduct all business under the name and style of:

D. The Enterprises to the Consortium/Joint Venture accept joint and several liability for the due fulfilment of the obligations of the Consortium/Joint Venture deriving from, and in any way connected with, the Contract entered into with the Department in respect of the project described under item A above.

E. Any of the Enterprises to the Consortium/Joint Venture intending to terminate the consortium/joint venture agreement, for whatever reason, shall give the Department 30 days written notice of such intention. Notwithstanding such decision to terminate, the Enterprises shall remain jointly and severally liable to the Department for the due fulfilment of the obligations of the Consortium/Joint Venture as mentioned under item D above.

F. No Enterprise to the Consortium/Joint Venture shall, without the prior written consent of the other Enterprises to the Consortium/Joint Venture and of the Department, cede any of its rights or assign any of its obligations under the consortium/joint venture agreement in relation to the Contract with the Department referred to herein.

G. The Enterprises choose as the *domicilium citandi et executandi* of the Consortium/Joint Venture for all purposes arising from the consortium/joint venture agreement and the Contract with the Department in respect of the project under item A above:

Physical address: _____

The bidding enterprise hereby absolves the Department of Public Works from any liability whatsoever that may arise as a result of this document being signed.

Note:

1. * Delete which is not applicable.
2. **NB:** This resolution must be signed by all the Duly Authorised Representatives of the Legal Entities to the consortium/joint venture submitting this tender, as named in item 2 of Resolution PA-15.2.
3. Should the number of the Duly Authorised Representatives of the Legal Entities joining forces in this tender exceed the space available above, additional names, capacity and signatures must be supplied on a separate page.
4. Resolution PA-15.2, duly completed and signed, from the separate Enterprises who participate in this consortium/joint venture, must be attached to this Special Resolution (PA-15.3).

PA-16: PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 Preference Points System to be applied

(tick whichever is applicable).

- The applicable preference point system for this tender is the **80/20** preference point system.
- The applicable preference point system for this tender is the **90/10** preference point system.
- Either the **90/10** or **80/20** preference point system will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender shall be awarded for:

1.3.1 Price; and

1.3.2 Specific Goals

1.4 The maximum points for this tender are allocated as follows:

CHOOSE APPLICABLE PREFERENCE POINT SCORING SYSTEM	<input checked="" type="checkbox"/> 80/20	<input type="checkbox"/> 90/10
PRICE	80	90
SPECIFIC GOALS	20	10
Total points for Price and Specific Goals	100	100

1.5 Breakdown Allocation of Specific Goals Points

1.5.1. For procurement transaction with rand value greater than R2 000, 00 and up to R1 Million (Inclusive of all applicable taxes) the specific goals listed in table 1 below are applicable.

Table 1

Serial No	Specific Goals	Preference Points Allocated out of 20	Documentation to be submitted by bidders to validate their claim
1.	An EME or QSE which is at least 51% owned by black people (Mandatory)	10	<ul style="list-style-type: none"> SANAS Accredited BBEE Certificate or Sworn Affidavit where applicable.
2.	Located in a specific Local Municipality or District Municipality or Metro or Province area for work to be done or services to be rendered in that area (Mandatory)	2	<ul style="list-style-type: none"> Official Municipal Rates Statement which is in the name of the bidder. <p>Or</p> <ul style="list-style-type: none"> Any account or statement which is in the name of the bidder. <p>Or</p> <ul style="list-style-type: none"> Permission to Occupy from local chief in case of rural areas (PTO) which is in the name of the bidder. <p>Or</p> <ul style="list-style-type: none"> Lease Agreement which is in the name of the bidder.
3.	An EME or QSE which is at least 51% owned by black women (Mandatory)	4	<ul style="list-style-type: none"> SANAS Accredited BBEE Certificate or Sworn Affidavit where applicable.
4.	An EME or QSE which is at least 51% owned by black people with disability (Mandatory)	2	<ul style="list-style-type: none"> SANAS Accredited BBEE Certificate or Sworn Affidavit where applicable.

			<p>and</p> <ul style="list-style-type: none"> • Medical Certificate indicating that the disability is permanent. <p>Or</p> <ul style="list-style-type: none"> • South African Social Security Agency (SASSA) Registration indicating that the disability is permanent. <p>Or</p> <ul style="list-style-type: none"> • National Council for Persons with Physical Disability in South Africa registration (NCPDPSA).
5.	An EME or QSE which is at least 51% owned by black youth (Mandatory)	2	<ul style="list-style-type: none"> • ID Copy and SANAS Accredited BBBEE Certificate or Sworn Affidavit where applicable.

1.5.2. For procurement transaction with rand value greater than R1 Million and up to R50 Million (Inclusive of all applicable taxes) the specific goals listed in table 2 below are applicable.

Table 2

Serial No	Specific Goals	Preference Points Allocated out of 20	Documentation to be submitted by bidders to validate their claim
1.	An EME or QSE or any entity which is at least 51% owned by black people (Mandatory)	10	<ul style="list-style-type: none"> • SANAS Accredited BBBEE Certificate or Sworn Affidavit where applicable.
2.	Located in a specific Local Municipality or District Municipality or Metro or Province area for work to be done or services to be rendered in that area (Mandatory)	2	<ul style="list-style-type: none"> • Official Municipal Rates Statement which is in the name of the bidder. <p>Or</p>

			<ul style="list-style-type: none"> Any account or statement which is in the name of the bidder. <p>Or</p> <ul style="list-style-type: none"> Permission to Occupy from local chief in case of rural areas (PTO) which is in the name of the bidder. <p>Or</p> <ul style="list-style-type: none"> Lease Agreement which is in the name of the bidder.
3.	An EME or QSE or any entity which is at least 51% owned by black women (Mandatory)	4	<ul style="list-style-type: none"> SANAS Accredited BBBEE Certificate or Sworn Affidavit where applicable.
4.	An EME or QSE or any entity which is at least 51% owned by black people with disability (Mandatory)	2	<ul style="list-style-type: none"> SANAS Accredited BBBEE Certificate or Sworn Affidavit where applicable. <p>and</p> <ul style="list-style-type: none"> Medical Certificate indicating that the disability is permanent. <p>Or</p> <ul style="list-style-type: none"> South African Social Security Agency (SASSA) Registration indicating that the disability is permanent. <p>Or</p> <p>National Council for Persons with Physical Disability in South Africa registration (NCPDPSA).</p>

OR			
5. <input type="checkbox"/>	An EME or QSE or any entity which is at least 51% owned by black youth (Mandatory)	2	<ul style="list-style-type: none"> • ID Copy and SANAS Accredited BBBEE Certificate or Sworn Affidavit where applicable

Black people mean Africans, Coloureds and Indians, who - (a) are citizens of the Republic of South Africa by birth or descent; or (b) became citizens of the Republic of South Africa by naturalisation - (i) before 27 April 1994; or (ii) on or after 27 April 1994 and who would have been entitled to acquire citizenship by naturalisation prior to that date. (BROAD-BASED BLACK ECONOMIC EMPOWERMENT ACT No 25899, 2003 of 9 JANUARY 2004).

1.6 Failure on the part of the tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals, if the service provider/ tenderer did not submit proof or documentation required to claim for specific goals will be interpreted to mean that preference points for specific goals are not claimed.

1.7 The organ of state reserves the right to require of a service provider/tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

(a) "tender" means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations,

competitive tendering process or any other method envisaged in legislation;

- (b) "price" means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) "rand value" means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) "tender for income-generating contracts" means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) "the Act" means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1. THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right) \text{ or } Ps = 90 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)$$

Where

- Ps = Points scored for price of tender under consideration
- Pt = Price of tender under consideration
- Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right) \text{ or } Ps = 90 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right)$$

Where

- Ps = Points scored for price of tender under consideration
- Pt = Price of tender under consideration
- Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1,2 and 3 above as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 4: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.)

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (90/10 system) (To be completed by the tenderer)	Number of points claimed (80/20 system) (To be completed by the tenderer)
1. An EME or QSE (or any entity for procurement transaction with rand value greater than R1 Million) which is at least 51% owned by black people	4	10		
2. Located in a specific Local Municipality or District Municipality or Metro or	2	2

PA- 40: DECLARATION OF DESIGNATED GROUPS FOR PREFERENTIAL PROCUREMENT

2. DECLARATION:

The undersigned, who warrants that he/she is duly authorized to do so on behalf of the Tenderer, hereby confirms that:

- 1 The information and particulars contained in this Affidavit are true and correct in all respects;
- 2 The Broad-based Black Economic Empowerment Act, 2003 (Act 53 of 2003), Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000), the Preferential Procurement Regulations, 2017, National Small Business Act 102 of 1996 as amended and all documents pertaining to this Tender were studied and understood and that the above form was completed according to the definitions and information contained in said documents;
- 3 The Tenderer understands that any intentional misrepresentation or fraudulent information provided herein shall disqualify the Tenderer's offer herein, as well as any other tender offer(s) of the Tenderer simultaneously being evaluated, or will entitle the Employer to cancel any Contract resulting from the Tenderer's offer herein;
- 4 The Tenderer accepts that the Employer may exercise any other remedy it may have in law and in the Contract, including a claim for damages for having to accept a less favourable tender as a result of any such disqualification due to misrepresentation or fraudulent information provided herein;
- 5 Any further documentary proof required by the Employer regarding the information provided herein, will be submitted to the Employer within the time period as may be set by the latter;

Signed by the Tenderer
