 - Inconsistency in implementation and the expected deliverables
 - Inconsistency in the commencement or active involvement of social facilitation
 - Insufficient experience in dealing with difficult community structures
 - Lack of urgency
 - After care services.
 - Lessons Learned
 - Experience of SF

NB: It must be noted that the SF has no authority to issue any instructions to the contractor. The SF needs to be neutral to all parties, therefore should endeavour not to take sides should conflict arise. Should the SF function not involve a full day's work, the incumbent will be expected to undertake other work allocated by the line manager or Project Manager for the balance of each day.

C3.2.1.2 Deliverables

For the infrastructure project to be successful and sustainable, the SF has to perform strategic and technical support to the project in line with the expected deliverables, namely:

- a) To develop Stakeholder Engagement Framework and Strategy/s and a social facilitation Implementing Plan as a reference document for the project.
- b) Develop stakeholder communication / consultation plan and report on engagement processes.
- c) Establish Community Representative Structures and Communication Channels by utilising existing governance structures for easy implementation of the programme at all levels and set up structures as required or where there is none.
- d) Develop an induction pack for the project stakeholders to ensure that the standards are uniform and there is proper understanding of the overall programme.
- e) Develop Communication and Engagement Strategies.
- f) Conduct community awareness about the infrastructure project to be implemented.
- g) Prepare an accessible database indicating number of suitable CPG beneficiaries by way of a feasibility study in consultation with the project team.

- i) Facilitate Community meetings and dialogues at agreed time frames and as and when necessary.
- j) Secure community support in all project phases.
- k) Provide Risk Management Plan.
- l) Compilation of CPG beneficiary data base (NYS beneficiaries, skills development beneficiaries and SMMEs).
- m) Provide input into the Monitoring and Reporting Framework of the project with reference to employment, training and SMME development reports.
- n) To develop and apply conflict resolution mechanisms and mediation.
- o) Facilitate Social Cohesion Processes.
- p) To craft and implement interventions and mitigation strategies.

- q) To develop and implement social facilitation reporting templates for monthly reporting.
- r) Facilitating community participation.
- s) Skills audits and establishing labour desks.
- t) Submit monthly progress report encompassing all activities..
- u) Submit close-out report on listed outputs and outcomes of the facilitation processes depicting processes, achievements, challenges, lessons learnt and proposals for improvement once completed.

SFs working on the ground, especially in the rural communities, need to understand rural structures and dynamics to be able to know how to deal with chiefs and other rural community structures.

Communication between project team and the PSEF is vital. The PSEF must be provided with the relevant information in terms of project implementation, procurement and progress on the site as well as contractor challenges, and must therefore be included in the progress meetings. Regular site visits at least twice a month in the initial stages of the project, thereafter at least once a month will improve scanning of issues and result in their speedy resolution.

Continuous feedback and engagement between the Contractor, Project Manager (PM) and the SF will ensure that the facilitator has the correct information on the deliverables and the progress of the project and will minimise PSEFs promising communities what is not in the schedule of the project.
