1. TROLLEY
Quantity x02

Heavy Duty Platform Trolley – Built for Strength, Designed for Efficiency
Move heavy loads with ease using the M&R Heavy Duty Platform Trolley, engineered for industrial performance and everyday practicality. Constructed from reinforced steel and finished with a durable electroplated coating, this trolley is built to handle demanding tasks in warehouses, workshops, retail, and commercial environments.

With smooth-rolling 100mm wheels and a large platform surface, it offers effortless handling, high load capacity, and stability on a range of surfaces. Powder-coated finishes are also available on request for added protection and aesthetic appeal.
