# OUR LOVED ONES NEED US
LET US VACCINATE AGAINST COVID-19
TO MAKE SURE WE ARE THERE FOR OUR
LOVED ONES

DID YOU KNOW?

- If you are 18 years old and above, you don't have to wait any longer! Go and get vaccinated at a site near you.

- You can simply present yourself at a vaccination site, even without an appointment where you will be registered and vaccinated.

- You can speed up the process by registering on https://vaccine.enroll.health.gov.za before you get to the site.

- Those without online access can register through SMS by dialling ***134*832*** your **ID number#**. If you do not have an ID number, dial *134*832#.

- Registration can also be done through the **COVID WhatsApp number** by sending "**REGISTER**" to **0600 123 456**.

- SMS and WhatsApp registration services are zero-rated; **there is no need to have data** or **airtime** to access the service.

- It remains important to **wear a mask**, **keep social distance** and **wash hands with soap** or **use an alcohol-based hand sanitiser** and **open windows for fresh air**.

- COVID-19 continues to spread and getting vaccinated is the only way to slow down the virus in our communities.

- **Once vaccinated**, **you are better protected against severe illness**, hospitalisation and death.

- **By vaccinating enough people**, **we can reduce the need for** preventative measures such as **hard lockdown** and **restrictions**.

LET US VACCINATE AGAINST COVID-19 SO WE CAN RETURN TO VISITING THE PLACES WE LIKE AND SEEING THE PEOPLE WE LOVE.
